HIGHLINE MEDICAL CENTER

RECEIVED
JAN 28 2013
CERTIFICATE OF NEED PROGRAM
DEPARTMENT OF HEALTH

January 15, 2013

Janis Sigman, Manager
Certificate of Need Program
Department of Health
P.O. Box 47852
Olympia, WA 98504-7852

Dear Ms. Sigman:

Consistent with WACs 246-310-080 and 246-310-710, Highline Medical Center[1] hereby submits a letter of intent proposing to establish an adult elective percutaneous coronary intervention (PCI) program.

As defined in WAC 246-310-705(5), the planning area for this project is Planning Area #10 (King West).

There is no capital expenditure associated with commencing elective PCI at Highline.

Please feel free to contact me directly if you have any questions.

Sincerely,

Mark Benedum
Chief Executive Officer

[1] As the Program is aware, the respective Boards of both the Franciscan Health System and Highline approved and executed a Letter of Intent (LOI) in June of 2012 that called for both entities to enter due diligence and to negotiate a Definitive Agreement for an Affiliation wherein FHS becomes the sole member of, and the parent entity to Highline. The Affiliation is expected to close by January 31, 2013. FHS and Highline will continue to exist as separate Washington not-for-profit corporations.
