Primary Care Provider Survey
Summary Report: Lincoln County

Survey year: 2013

The Department of Health (DOH) conducts the Primary Care Provider Survey to obtain health care access data. This data is used in the Health Professional Shortage Area (HPSA) designation analysis. HPSA is a federal program administered by the federal Office of Health Resources and Services Administration (HRSA). A HPSA designation identifies areas with provider shortages for underserved and uninsured populations. To learn more about the program please see the HPSA Overview.

This summary report reflects provider survey responses. The department makes every attempt to establish a close to accurate number of providers by collecting lists from local health departments, the National Provider Identifier Registry and other sources. To meet federal guidelines in the analysis the target response rate is >75%. This report offers an aggregate summary of the survey responses.

For questions about the survey data, methodology, and related information please contact Natalie Ogle at Natalie.Ogle@doh.wa.gov or by phone at (360) 236-2832. Information on other counties can be found on the Health Care Access Research Page.

GENERAL DEFINITIONS		
Primary Care Provider	Health care professionals who serve as the initial point of contact in the assessment and management of a patient's health care needs. This includes: preventive care; treatment of health ailments; management of chronic illness and conditions; and additional care defined by the practitioner's specialty.	
Provider Types and Credentials	Primary care providers are defined by HRSA and exclude naturopathic doctors. For survey purposes credentialing types licensed by the department were used.	
	Physicians: · Doctor of Medicine (M.D.) · Doctor of Osteopathy (D.O.)	Mid-levels: · Physician Assistant (P.A.-C.) · Certified Nurse Midwife (C.N.M.-A.R.N.P.) · Licensed Midwife (L.M.) · Advanced Registered Nurse Practitioners (A.R.N.P.)
Primary Care Specialty	Primary care specialties are defined by HRSA and exclude specialized care for any of the below listed specialties as well as emergency room, locum tenens (substitutes), hospitalists, occupational medicine, urgent or walk-in clinics, free clinics, and Department of Corrections facilities.	
	· Family Practice or General Practice · General Internal Medicine · General Pediatrics · General Geriatrics · General Obstetrics/Gynecology	
COUNTY PROFILE		
Lincoln County	The United States Census Bureau supplied county data and can be found at: http://quickfacts.census.gov/qfd/states/53000.html	
Population (2012)	10,437	Land area	2,310.49 sq. mi	
Major City/Town (Population)	· Davenport (1,734) · Odessa (910) · Wilbur (884) · Reardon (571) · Sprague (446)	

Primary Care Provider Survey
Summary Report: Lincoln County

Survey year: 2013

Provider Headcount	The DOH determined the number of providers within the county by compiling listings from several sources. Mid-level headcount is not readily available and is collected for other healthcare analysis. Mid-level capacity is excluded in the HPSA analysis.	
	Physicians: 7	**Mid-levels**: 3
Survey Respondents	Respondent is the number of survey responses submitted. Responses were achieved by direct contact and mailings to clinics.	
	Physicians: 7 (100% of surveyed physicians)	**Mid-levels:** 1 (33.3% of surveyed mid-levels)
Primary Care Specialty Some respondents may not have selected a specialty	Family Practice: 7 General Practice: - Internal Medicine: - General Pediatrics: - General Geriatrics: - OB/Gynecology: -	Family Practice: 1 General Practice: - Internal Medicine: - General Pediatrics: - General Geriatrics: - OB/Gynecology: -
Provider Full-Time Equivalency (FTE)	Full-time equivalent is the sum of reported primary care hours (weekly hours >40 were adjusted to 40) then divided by 40 to obtain the total FTE for the county. One FTE = 40 hours direct patient care per week.	
	5.2 Physician FTE	**0.6 Mid-level FTE**
PROVIDER CHARACTERISTICS		
Proportion Calculations	Proportions are calculated with: • Numerator: counts of respondent primary care providers who indicate the listed characteristic • Denominator: total respondents (physicians and mid-levels) ○ **Lincoln County: n=8, unless noted**	
Hospital Admitting Privileges	100% of providers, or 7 physicians and 1 mid-level, have hospital admitting privileges	
Multilingual Interpretive Services	62.5% of providers, or 5 physicians and 0 mid-levels, indicate having a resource for multilingual interpretive services in their community. Services are provided: • In person • Via phone • Via computer	
Transitory agricultural migrant farm workers	Patients and their dependents defined as not having a permanent local address in the area as the practice.	
	0% of providers, or 0 physicians and 0 mid-levels, indicate having patients and their dependents defined as transitory agricultural migrant farm workers.	
Homeless persons	Patients and their dependents defined as those living in unstable, nonpermanent locations such as in shelters, transitional housing, in tents, in cars, or on the streets.	
	0% of providers, or 0 physicians and 0 mid-levels, indicate having patients and their dependents defined as homeless.	

PAYER TYPES	
Medicaid	Federal and state administered payment for low income persons and includes Healthy Options.
Accepting new patients:	100% of providers, or 7 physicians and 1 mid-level, treat Medicaid patients. 17.5% is the average proportion of Medicaid patients. (n=8) 62.5% of providers, or 5 physicians and 0 mid-levels, accept new Medicaid patients. Restrictions include: • None
Medicare	Federally administered payment for senior citizens and some disabled persons under age 65. This includes Fee-for-Service and Managed Care.
Accepting new patients:	100% of providers, or 7 physicians and 1 mid-level, treat Medicare patients. 35.0% is the average proportion of Medicare patients. (n=8) 62.5% of providers, or 5 physicians and 0 mid-levels, accept new Medicare patients. Restrictions include: • None
Sliding Fee Scale (SFS)	No insurance or subsidies and fees are discounted according to income level. Includes charity.
Accepting new patients:	37.5% of providers, or 2 physicians and 1 mid-level, treat SFS patients. 3.0% is the average proportion of SFS patients. (n=3) 62.5% of providers, or 5 physicians and 0 mid-levels, accept new SFS patients. Restrictions include: • None
Other Payer types	Private insurance through work or self purchased; other public payers including Basic Health, military (e.g. Tricare), and L&I
	100% of providers, or 7 physicians and 1 mid-level, treat patients with other payer types.
ADDITIONAL FACILITIES	
Federally Qualified Health Center or Community Health Center (FQHC or CHC)	FQHCs, also known as CHCs, are health care facilities that provide primary care services to all persons regardless of ability to pay. Centers providing primary care are surveyed.
	• None
Rural Health Clinic (RHC)	The U.S. Center for Medicare and Medicaid Services designates clinics meeting specific conditions for certification as a Rural Health Clinic. RHCs are eligible for enhanced Medicare and Medicaid reimbursement. These clinics are surveyed.
	• Davenport Clinic • Odessa Memorial Healthcare Center • Wilbur Clinic
Tribal Health Clinic	Tribal Health Clinics that do not serve non-tribal patients were excluded in the survey and HPSA analysis.
	• None

Free Clinic	Free clinics are medical facilities providing health services for little to no cost. These clinics are not surveyed.
	• None
College/University	• None with health clinics
