An acute care hospital may not be the appropriate setting for all reproductive health services listed below.
Some reproductive services are most appropriately available in outpatient settings such as a physician office or clinic, depending on the specific patient circumstances.

The following reproductive health services are generally available at the above listed hospital:

Abortion services

- Medication abortion
- Referrals for abortion
- Surgical abortion

Contraception services

- Birth control: provision of the full range of Food and Drug Administration-approved methods including intrauterine devices, pills, rings, patches, implants, etc.
- Contraceptive counseling
- Hospital pharmacy dispenses contraception
- Removal of contraceptive devices
- Tubal ligations
- Vasectomies

Emergency contraception services

- Emergency contraception - sexual assault
- Emergency contraception - no sexual assault

Infertility services

- Counseling
- Infertility testing and diagnosis
- Infertility treatments including but not limited to in vitro fertilization

Other related services

- Human immunodeficiency virus (HIV) testing
- Human immunodeficiency virus (HIV) treatment
- Pre-exposure prophylaxis (PrEP), post-exposure prophylaxis (PEP), prescriptions, and related counseling
- Sexually transmitted disease testing and treatment
- Treatment of miscarriages and ectopic pregnancies

Pregnancy-related services

- Counseling
- Genetic testing
- Labor and delivery
- Neonatal intensive care unit
- Prenatal care
- Postnatal care
- Ultrasound

Comments; limitations on services; other services

EvergreenHealth Monroe does not provide maternity care benefits and services. The hospital does provide a residential chemical dependency treatment program and detox services for pregnant women, and may provide treatment for pregnant women for gestation of less than 20 weeks, in the event of an urgent or emergency spontaneous abortion.
