- If Yes, explain:

Purpose: WAC 246-300-001 Licensed health care facilities and coronavirus disease 2019 (COVID-19). Adopting an emergency rule to clarify that licensed facilities must comply with state and federal statutes, rules, lawful orders, and other legal requirements, including lawful orders issued to prevent the spread of COVID-19. This emergency rule establishes that all health care facilities licensed by the Department of Health must comply with state and federal statutes, administrative rules, lawful orders, and other legal requirements relating to the operation of the facility and the control or prevention of the spread of COVID-19, including orders issued by the Governor, by the Secretary of Health, by a local board of health, and by a local health officer.

Citation of rules affected by this order:

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The worldwide COVID-19 pandemic and its persistence in Washington State continue to threaten the life and health of the people and economy of Washington, and remain a public disaster affecting life, health, property or the public peace. COVID-19 continues as an ongoing and present threat in Washington with continuing prevalence of COVID-19 cases and hospitalizations, primarily among unvaccinated populations but also in breakthrough infections in some fully vaccinated individuals. Clarifying the applicability of state and federal statutes, administrative rules, lawful orders, and other legal requirements to licensed health care facilities will assist facilities to comply with these requirements and will assist the department in its efforts to ensure the health and safety of the workers, recipients of services, and visitors in those facilities.

The immediate adoption of this emergency rule and the clarity it brings to licensed health care facilities is necessary for the preservation of public health, safety, and general welfare. Observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to protecting immediate public interests.

NEW SECTION

WAC 246-817-581 Novel coronavirus disease 2019 vaccination. (1)

A supervising dentist may delegate the administration of a vaccination of novel coronavirus disease 2019 to a licensed dental hygienist under the dentist's close supervision, provided the licensed dental hygienist has demonstrated skills necessary to perform the task competently.

(2) For the purpose of administering vaccination for the novel coronavirus disease 2019, a dentist's approval of the vaccination protocol and screening meets the dentist's requirement to diagnose the condition to be treated and personal authorization of the procedure as required by close supervision under WAC 246-817-510(1).
