Performance Measure #1 – Increase the uptake of new and under-used child and adolescent vaccines; specifically focusing improvement efforts and reporting on Varicella, Rota Virus, HPV and Pediatric Influenza.

Reporting Measure

A: Number of doses of vaccine ordered by each LHJ

B: Number of doses administered as recorded in CHILD Profile

PM#	Objectives / Strategies	Action
1	Provide, support and facilitate educational trainings for local healthcare providers on immunizations, emphasizing new and under used vaccines.	Use Power Point presentation during provider site visits and at other training opportunities.
1	Collaborate with healthcare providers to use the CHILD Profile recall system to increase child vaccine timeliness and administration.	Run CoCASA Summary reports and provide to clinics to use as a tool to recall clients.
1	Expand number of healthcare providers entering data into CHILD Profile.	Contact and visit providers to train them on entering data into CHILD Profile.
1	Visit healthcare provider clinics in Clark County that use state supplied vaccine and provide education and training	Public health nurse and the health educator conduct visits and training.

Performance Measure #2 – Improve the timely, complete identification and standard, effective investigation of notifiable conditions per WAC 246-101.

Reporting Measure

A: Percent of notifiable condition cases reported to the LHJ within the required timeframe (per WAC)

B: Percent of notifiable condition cases reported to the LHJ where investigation was initiated within the timeframe specified in the Guidelines

C: Percent of notifiable condition cases reported to the LHJ with a completed investigation as indicated by completion of “essential fields”

PM#	Objectives / Strategies	Action
2	Maintain staff to accomplish performance measure 2 activities	Maintain 1.0 FTE Health Educator 1.0 Epidemiologist
2	Provide annual mailings to health care providers and laboratories to identify notifiable conditions reporting requirements per WAC.	Send Health Officer letter and poster to all healthcare providers and laboratories in Clark County.
2	Conduct monthly QI checks of PHIMS entries to ensure complete entry of all essential fields and reports to DOH within required timeframes.	Use monitoring tool; document PHIMS QI checks; report results to CD team; train as needed to ensure compliance.
2	Conduct staff training on required timeframes for responding to reports of notifiable conditions, for reporting to DOH, and in completing investigations.	Health educator provides training curriculum based on QI checks and assist with training of ID or Department staff.
2	Increase knowledge and awareness of reporting notifiable conditions and timely reporting among healthcare providers/labs in Clark County. Provide onsite consultation.	Health educator provides training to health care providers based on PHIMS QI reports and incomplete outbreak or NC reports. Visit health care providers' offices and labs, participate in the Infectious

		Disease Advisory Committee or mail letters from the Health Officer.
