FAX (360) 586-7424

**Performance Measure #1** – Increase the uptake of new and under-used child and adolescent vaccines; specifically focusing improvement efforts and reporting on Varicella, Rota Virus, HPV and pediatric influenza.

**Reporting Measure**

**A:** Number of doses of vaccine ordered by each LHJ

**B:** Number of doses administered as recorded in CHILD Profile

PM#	Objectives / Strategies	Action
1	Contract with Clark count LHJ for clinical nurse supervision and leadership to ensure performance improvement in core services and activities of statewide significance. Intervention is based upon the findings of the nurse assessment which include but are not limited to 1) ensure that immunizations are delivered in a clinically appropriate manner; 2) that charting meets accreditation and community standards for like clinics; 3) that vaccine storage and monitoring fits accreditation and community standard guidelines; 4) that performance improvement systems are instituted that continue to monitor and improve practice in these areas.	Contracted services

**Performance Measure #2** – Improve the timely, complete identification and standard, effective investigation of notifiable conditions per WAC 246-101.

**Reporting Measure**

**A:** Percent of notifiable condition cases reported to the LHJ within the required timeframe (per WAC)

**B:** Percent of notifiable condition cases reported to the LHJ where investigation was initiated within the timeframe specified in the Guidelines

**C:** Percent of notifiable condition cases reported to the LHJ with a completed investigation as indicated by completion of “essential fields”

PM#	Objectives / Strategies	Action
2	Contract with Clark count LHJ for clinical nurse supervision and leadership to ensure performance improvement in core services and activities of statewide significance. Based upon the findings of the nurse assessment which include but are not limited to 1) ensure that communicable disease notification and investigation are performed in a clinically appropriate manner; 2) that charting meets accreditation and community standards for like clinics; 3) that investigations occur within appropriate timelines following accepted protocols; 4) that performance improvement systems are instituted that continue to monitor and improve practice in these areas; 5) Publish quarterly newsletters to providers and other identified groups.	Contracted services

2	Focus contact investigation and follow-up with Chlamydia cases and enhance contact tracing of partners of Gonorrhea cases. Develop and maintain a Communicable Disease notification process with all the providers in the area and expanding the audience to include school nurses, teachers and other audiences identified by mobilizing state educational services and making them available within the schools. Provide support to the reproductive health coalition. Provide support to the STD program manager as needed in doing HIV/STD counseling and testing, STD case investigations and contact tracing.	Epidemiologist Public Health Nurse
2	Focus contact investigation and follow-up with Chlamydia cases and enhance contact tracing of partners of Gonorrhea cases	Epidemiologist Public Health Nurse
