FAX (360) 586-7424

Performance Measure #1 – Increase the uptake of new and under-used child and adolescent vaccines; specifically focusing improvement efforts and reporting on Varicella, Rota Virus, HPV and Pediatric Influenza.

Reporting Measure

A: Number of doses of vaccine ordered by each LHJ

B: Number of doses administered as recorded in CHILD Profile

PM#	Objectives / Strategies	Action
1	Maintain current Immunization Program staffing to support clinics and program activities.	1. Continue increased Immunization RN staffing to support all program activities and ensure consistent back-up staffing for walk-in immunization clinics
1	Increase uptake of influenza vaccine in infants and pre-school population.	<ol style="list-style-type: none"> 1. Offer influenza vaccine for infants and young children being seen in WIC and MSS clinic. 2. Review and improve reminder/recall system for influenza dose #2, compare Child Profile vs.KIHPS recall systems.
1	Increase immunization options and uptake provided through the School Based Health Clinics.	<ol style="list-style-type: none"> 1. Purchase new vaccine refrigerator for both clinics. 2. Train Clinic staff on vaccine storage and handling. 3. Train Clinic staff on Adolescent Immunization Schedule and Catch-up Schedule. 4. Update parent information packet regarding immunizations available at the School Based Clinics, including VIS and consent forms.
1	Increase immunization compliance and completion of recommended vaccines in School age population	<ol style="list-style-type: none"> 1. Meet with each school district secretaries in East Jefferson County to discuss Immunization requirements, exemptions and compliance information. 2. Offer support and resource information to secretaries. 3. Encourage and support school secretaries in the use of Child Profile to obtain immunization records.
1	Support convenient community access to immunizations for school aged children.	<ol style="list-style-type: none"> 1. Recruit local urgent care clinic to become a VFC provider. 2. Encourage and support enrollment in Child Profile.

Performance Measure #2 – Improve the timely, complete identification and standard, effective investigation of notifiable conditions per WAC 246-101.

Reporting Measure

A: Percent of notifiable condition cases reported to the LHJ within the required timeframe (per WAC)

B: Percent of notifiable condition cases reported to the LHJ where investigation was initiated within the timeframe specified in the Guidelines

C: Percent of notifiable condition cases reported to the LHJ with a completed investigation as indicated by completion of “essential fields”

PM#	Objectives / Strategies	Action
2	Maintain current Communicable Disease Program staffing levels to ensure the ability to meet performance measures.	1. Continue increased CD RN staffing, to ensure consistent CD program back-up coverage, fulfill objectives and carry out focused contact investigation and follow-up with every Chlamydia case.
2	Conduct Monthly QA review of notifiable conditions cases for timely and complete case investigation.	1. Review cases entered into PHIMS each month. 2. Complete/update information in PHIMS as needed during monthly review of cases. 3. Share results of review of cases with CD Program team.
2	Improve web page for communicating to providers about notifiable conditions issues, outbreaks, and reporting.	1. Continue to improve and update the new provider page. 2. Post the newly developed notifiable conditions reporting form on the provider page and inform the providers about its location.
2	Visit provider clinics and hospitals to provide public Health updates, including notifiable conditions updates.	1. Support Region 2 Public Health Liaison biannual visits to all provider clinics and hospitals. 2. Participate in the discussion and decision about prioritization of issues for each upcoming round of visits. 3. Attend Jefferson Healthcare's quarterly Infection Control meetings.

Performance Measure #3 – Develop and implement effective community and health care system interventions to address obesity and its consequent burden of chronic disease. Interventions may target worksites, schools, communities, or primary medical care.

Reporting Measure

A: Number and description of LHJ activities and interventions to address obesity or chronic disease and association risk factors in the community.

PM#	Activity	Resources
3	Complete web-based survey provided by DOH.	Assessment contractor
