

5930 Work Plan Template Consolidated Contract Deliverable

LHJ Name: Lewis County Health Department
Date: 2/10/2010
LHJ Work Plan Contact: Danette York (360) 740-2774

Due: Feb 15, 2010
Send to: Tiffany.Escott@doh.wa.gov
FAX (360) 586-7424

Performance Measure #1 – Increase the uptake of new and under-used child and adolescent vaccines; specifically focusing improvement efforts and reporting on Varicella, Rota Virus, HPV and Pediatric Influenza.

Reporting Measure

A: Number of doses of vaccine ordered by each LHJ

B: Number of doses administered as recorded in CHILD Profile

| PM# | Objectives / Strategies | Action |
|-----|---|---|
| 1 | Work with providers to sustain participation entering data into CHILD Profile; and envelop reminder / recall activities to increase child vaccine timeliness and administration | Assess providers, identify areas for improvement, and support as needed in using CHILD Profile and implementing reminder/recall activities. |
| 1 | Increase provider knowledge of immunization guidelines for use of state supplied vaccine | Educate providers about vaccine usage. Update regularly. |
| 1 | Increase parents' knowledge about recommendations and requirements for vaccination | Educate parents through outreach including health fairs, provider offices, schools, and mass media. |

Performance Measure #2 – Improve the timely, complete identification and standard, effective investigation of notifiable conditions per WAC 246-101.

Reporting Measure

A: Percent of notifiable condition cases reported to the LHJ within the required timeframe (per WAC)

B: Percent of notifiable condition cases reported to the LHJ where investigation was initiated within the timeframe specified in the Guidelines

C: Percent of notifiable condition cases reported to the LHJ with a completed investigation as indicated by completion of "essential fields"

| PM# | Objectives / Strategies | Action |
|-----|---|---|
| 2 | Sustain efforts to improve timeliness and completeness of provider reporting, including communicable diseases and STD's | On-going contact with providers. Identify new providers and support staff. Provide continuous education regarding notifiable conditions and reporting requirements. Notify providers of new changes in reporting requirements, including updated reporting forms. |
| 2 | Sustain efforts to improve timeliness and completeness of laboratory reporting of notifiable conditions | On-going contact with lab personnel. Provide continuous education regarding notifiable conditions and reporting requirements. |
| 2 | Sustain efforts of LHJ to initiate and complete CD investigations within | Initiate and complete investigation within specified timeframe. |

| | | |

| | specified timeframe. | |
|--|----------------------|--|

Performance Measure #3 – Develop and implement effective community and health care system interventions to address obesity and its consequent burden of chronic disease. Interventions may target worksites, schools, communities, or primary medical care.

Reporting Measure

A: Number and description of LHJ activities and interventions to address obesity or chronic disease and association risk factors in the community.

| PM# | Activity | Resources |
|-----|---|--|
| 3 | Complete assessment of obesity and its effects within our county. Based on assessment outcome, identify possible interventions. | Staff time to conduct assessment; community meetings held to discuss assessment process and results. |
| 3 | Continue work with local media contacts to provide health information for mass broadcast and print outlets. | Staff time for PSAs, press releases, and other health messages developed. |
| 3 | Continue to support (county) employee wellness program | Wellness program; staff time to provide educational sessions for employees. |
| 3 | Continue relationship with Northwest Pediatrics (and other medical providers), schools, worksites, and other community organizations via local obesity coalition and other evidence based interventions to address obesity and it's consequent burden of chronic disease. | Relationships with community partners; ongoing research/training opportunities regarding evidence based practices for improved health behaviors specifically related to obesity. |
| 3 | Community education regarding obesity and its health consequences. | Staff time for preparation and delivery of educational requests. |
