

## 5930 Work Plan Template Consolidated Contract Deliverable

LHJ Name: Tacoma-Pierce County Health Dept.  
Date: Feb 11, 2010  
LHJ Work Plan Contact: Cindan Gizzi

Due: Feb 15, 2010  
Send to: [tiffany.escott@doh.wa.gov](mailto:tiffany.escott@doh.wa.gov)

**Performance Measure #1** – Increase the uptake of new and under-used child and adolescent vaccines; specifically focusing improvement efforts and reporting on Varicella, Rota Virus, HPV and Pediatric Influenza.

**Reporting Measure**

**A:** Number of doses of vaccine ordered by each LHJ

**B:** Number of doses administered as recorded in CHILD Profile

PM#	Objectives / Strategies	Action
1	Educate Pierce County providers who use state-supplied vaccine about target vaccines and CHILD profile through annual visits and provider newsletters.	<ul style="list-style-type: none"> <li>Use Network Nurses to visit providers at least one time per year. Promote vaccines through quarterly newsletters sent to providers.</li> </ul>
1	Provide training opportunities for providers who use state-supplied vaccine.	<ul style="list-style-type: none"> <li>Coordinate and schedule CME training opportunities to inform providers about training opportunities</li> </ul>
1	Provide target vaccines to children through clinics targeting low income areas and areas with high concentrations of children.	<ul style="list-style-type: none"> <li>Contract with community providers to provide mobile clinics.</li> </ul>
1	Promote school based immunization clinics.	<ul style="list-style-type: none"> <li>Partner with school districts and contracted immunization providers to conduct clinics in schools.</li> </ul>
1	Reduce the number of personal exemptions granted for required vaccines for school entry	<ul style="list-style-type: none"> <li>Meet with school nurses and district staff to promote model policies and inform them of any changes to legislation.</li> <li>Conduct pilot program to assess efficacy of reviewing student records for exemptions and conducting call-backs for school based clinics</li> </ul>
1	Evaluate above objectives/strategies to determine effectiveness of interventions.	<ul style="list-style-type: none"> <li>Use Epidemiologist to coordinate evaluation plan, data collection and data analysis.</li> </ul>

**Performance Measure #2** – Improve the timely, complete identification and standard, effective investigation of notifiable conditions per WAC 246-101.

**Reporting Measure**

**A:** Percent of notifiable condition cases reported to the LHJ within the required timeframe (per WAC)

**B:** Percent of notifiable condition cases reported to the LHJ where investigation was initiated within the timeframe specified in the Guidelines

**C:** Percent of notifiable condition cases reported to the LHJ with a completed investigation as indicated by completion of “essential fields”

PM#	Objectives / Strategies	Action
-----	-------------------------	--------

2	Improve timely and complete investigation of reported cases of non-STD,HIV or Hepatitis reportable conditions	<ul style="list-style-type: none"> <li>• Audit reported cases of non-STD,HIV or Hepatitis reportable conditions to ensure data are entered correctly, ensure investigations are complete and identify opportunities to improve timeliness of reporting</li> </ul>
2	Maintain increased percentage of chlamydia cases interviewed	<ul style="list-style-type: none"> <li>• Implement case review process for in-house staff training, technical assistance, and capacity building.</li> <li>• Maintain monthly reporting so staff can see productivity and improvement in their work.</li> </ul>
2	Promote expedited partner therapy (EPT) to increase treatment of partners exposed to Chlamydia.	<ul style="list-style-type: none"> <li>• Promote provider EPT through 1) provider training and visits from Network Nurses and 2) Surveillance Case Report conversations with providers.</li> </ul>
2	Educate Pierce County providers of reporting requirements for notifiable conditions.	<ul style="list-style-type: none"> <li>• Use Network Nurses to visit all providers in the county likely to report a notifiable condition to encourage timely reporting.</li> <li>• Use Surveillance Case Reporting staff to inform providers about reporting requirements for STDs and HIV.</li> <li>• Produce and distribute to providers a quarterly newsletter sharing notifiable condition data and encouraging timely reporting.</li> </ul>
2	Ensure appropriate training of CD Control staff and protocols to ensure timely and complete investigation of notifiable conditions.	<ul style="list-style-type: none"> <li>• Conduct review of internal protocols for investigating notifiable conditions, assess performance and conduct staff training as necessary.</li> </ul>
2	Evaluate above objectives/strategies to determine effectiveness of interventions.	<ul style="list-style-type: none"> <li>• Use Epidemiologist to coordinate evaluation plan, data collection and data analysis.</li> </ul>

**Performance Measure #3** – Develop and implement effective community and health care system interventions to address obesity and its consequent burden of chronic disease. Interventions may target worksites, schools, communities, or primary medical care.

**Reporting Measure**

**A:** Number and description of LHJ activities and interventions to address obesity or chronic disease and association risk factors in the community.
