

**5930 Survey of LHJs  
Regarding Activity on Performance Measure #3  
During Calendar Year 2012**

As directed by the legislature back in 2007, the 5930 Performance Measures Committee established performance measures for the then new 5930 funds. The same performance measures are still in use for these funds. The funds are to be used to address the following in rank order:

Performance Measure #1 – Increase the uptake of new and under-used child and adolescent vaccines; specifically focusing improvement efforts and reporting on Varicella, Rota Virus, HPV and pediatric influenza.

- A. Number of doses of vaccine ordered by each LHJ
- B. Number of doses administered as recorded in CHILDP Profile

Performance Measure #2 – Improve the timely, complete identification and standard, effective investigation of notifiable conditions per WAC 246-101.

- A. Percent of notifiable condition cases reported to the LHJ within the required timeframe (per WAC)
- B. Percent of notifiable condition cases reported to the LHJ where investigation was initiated within the timeframe specified in the Guidelines
- C. Percent of notifiable condition cases reported to the LHJ with a completed investigation as indicated by completion of “essential fields”

Performance Measure #3 – Develop and implement effective community and health care system interventions to address obesity and its consequent burden of chronic disease. Interventions may target worksites, schools, communities, or primary medical care.

- A. Number and description of LHJ activities and interventions to address obesity or chronic disease and association risk factors in the community.

**This survey serves as the data source for performance measure 3A. The survey collects information on LHJ activities to address obesity and its consequent burden on chronic disease during the preceding calendar year – 2012.** While better measures for this work continue to evolve, we plan to continue using this survey through the end of calendar year 2013 in order to collect data that is comparable to prior survey results dating back to the origin of 5930 funding in 2008.

The survey will be available on-line until 2/28/13.

Aggregate survey results will posted on the PHIP 5930 Performance Measures web-site at:

<http://www.doh.wa.gov/PublicHealthandHealthcareProviders/PublicHealthSystemResourcesandServices/PublicHealthImprovementPartnershipPHIP/5930PerformanceMeasures/MeasurementData.aspx>

For questions or comments, please contact Marie Flake at [marie.flake@doh.wa.gov](mailto:marie.flake@doh.wa.gov) or 360-236-4063.

**Performance Measure #3 - Chronic Disease: Develop and implement effective community and health care system interventions to address obesity and its consequent burden of chronic disease. Interventions may target worksites, schools, communities, or primary medical care.**

**Goal:** Reduce the obesity epidemic threatening the health of our communities.

**Rationale:** Overweight/obesity is a major unchecked epidemic in the state and a leading underlying cause of death. Performance measures for this behavior-based health threat must include both short and long term measures, and must include actions taken as well as assessment of weight-related trends.

**GENERAL QUESTIONS:**

1. For calendar year 2012, what was your LHJ's capacity (staff) that worked to address obesity and develop obesity interventions?
  - a. 0 staff
  - b. .5 - 1 staff FTE
  - c. .5 – 1 staff PTE
  - d. 2 – 3 staff FTE
  - e. 2 – 3 staff PTE
  - f. 4 or more staff FTE
  - g. 4 or more staff PTE
  
2. For calendar year 2012, what did your LHJ need in order to make improvements to interventions in addressing obesity in your community? Please choose all that apply.
  - a. Additional funding
  - b. Training/learning opportunities
  - c. Information on best practices
  - d. Other

**INTERVENTION QUESTIONS:**

The following questions center on specific education and interventions that you LHJ was able to provide to the community to help address the obesity epidemic. Please provide information on the numbers of interventions or educational sessions that your LHJ either lead or participated in from during calendar year 2012.

3. For calendar year 2012, did your LHJ lead any community interventions to address, educate, or prevent obesity?
  - a. Yes
  - b. No
  
4. For calendar year 2012, how many community activities to address, educate, or prevent obesity did your LHJ lead?
  - a. 0
  - b. 1
  - c. 2 – 3
  - d. 4 – 5
  - e. More than 5
  
5. For calendar year 2012, did your LHJ participate in any community interventions to address, educate, or prevent obesity?
  - a. Yes
  - b. No
  
6. For calendar year 2012, how many community activities to address, educate, or prevent obesity did your LHJ participate in?
  - a. 0
  - b. 1
  - c. 2 – 3
  - d. 4 – 5
  - e. More than 5
  
7. For calendar year 2012, did your LHJ participate in any community coalitions to address, educate, or prevent obesity?
  - a. Yes
  - b. No
