In Meeting 5, the Policy Workgroup discussed different funding responsibility ideas. Near the end of the meeting, the Workgroup discussed an idea where the State would be responsible for funding FPHS, except for federally-funded and local fee-supported costs.

This idea, identified in all documents as Alternative 1, is used as a starting point for our discussion in Meeting 6, which will include further examination of this and other ideas.

Please review the following materials, as they will be used in Meeting 6 for evaluating the implications of **Alternative 1**: State is responsible for funding FPHS, except for federally-funded and local fee-supported costs.

- Financial Summary of FPHS Funding Alternative 1
- FPHS Fees: An Explanation
- FPHS Gap: A Breakdown by Program
- FPHS Service Delivery: Implications and Trade-offs
- Role of Current Public Health Spending on Non-FPHS Services Under Alternative 1
- Tribal Public Health
