

## Foundational Public Health Services - Suggested LHJ Measures

### Assessment (surveillance and epidemiology)

15-Nov-13

Item #	Foundational Capability/Service	Topic areas	Suggested LHJ Measure*	Source of Data	Possible NEW A&S Item	Comments	<u>PHAB v 1.5</u> <u>Draft</u>
1	Ability to <u>collect</u> sufficient statewide <u>data</u> (i.e. BRFSS, HYS, vital statistics) to develop and maintain electronic information <u>systems</u> (i.e. PHIMS, PHRED, CHARS,, CHAT) to guide public health planning and decision making at the state and local level		This is a state level capability			There is a potential need to have locals facilitate buyin locally, for example, with	
2	Ability to access, analyze and use data from 8 specific information sources, including: census data, vital statistics, notifiable condition data, certain clinical administrative data sets including hospital discharge, Behavioral Risk Factor, Healthy Youth Survey, Basic Community and Environmental Health Indicators, and Local and state chart of accounts,.	Ability to access and translate data into information	Example of use and analysis of each data source (BOH presentiaions, minutes or reports, assessment documents, annual reports, program planning documents, or other communication of of the data results and concludions) Other examples include epidemiologic reports, disease investigation reports, population or key health indicators reports, and outbreak	Documents provided by the LHJ	Have you used/analyzed the following kinds of information in your program planning or assessment work? (check all that apply). [Checkoff list of each data type.]		1.2.1 and 1.3
3	Ability to <b>prioritize</b> and respond to data requests and to translate data into information and reports that are valid, statistically accurate, and readable to the intended audiences	Prioritize and respond to data requests	Examples of timely information and reports provided in response to data requests or a process in place.	Documents provided by the LHJ	Do your LHJ have the capacity to respond to data requests with reports that are valid, statistically accurate and readable? (Y or N)		1.2 and 1.3.2

Item #	Foundational Capability/Service	Topic areas	Suggested LHJ Measure*	Source of Data	Possible NEW A&S Item	Comments	PHAB v 1.5
							Draft
		Tanslate data into information for intended audiences	Examples include data on one or more issue such as health behaviors; disease clusters or trends;EH hazard reports; etc.	Documents provided by the LHJ			1.3.2
4	Ability to conduct a basic community and statewide health assessment and identify health priorities arising from that assessment, including analysis of health disparities	<ul style="list-style-type: none"> <li>• Conduct a basic community and statewide health assessment</li> <li>• Identify health priorities arising from that assessment, including analysis of health disparities</li> </ul>	<p>Examples of CHA or other assessment report(s) addressing priorities and health disparities Documentaion could include meeting notes showing representatives from a variety of community sectors, reports of data analysis, and results of focus group</p> <p>Documentaion could include meeting notes showing process used to identify health issues and assets.</p>	<p>Documents provided by the LHJ</p> <p>Documents provided by the LHJ</p>	Current A&S LHJ Assessment Survey item 3 simply asks if the LHJ conducted or participated in a broadly focused CHA	It seems that the ability to conduct and to prioritize need to be shown somehow	1.1

\*e.g. the kind of info needed on whether an LHJ has this Capability or does this Service - many services have shared LHJ and DOH responsibility

## Foundational Public Health Services - Suggested LHJ Measures

### Emergency Preparedness (All Hazards)

14-Nov-13

Item #	Foundational Capability/Service	Topic areas	Suggested LHJ Measure*	Source of Data	Possible NEW A&S Item	Comments	PHAB v. 1.5 draft
1	Ability to develop and rehearse response strategies and plans, in accordance with national and state guidelines, to address natural or manmade disasters and emergencies, including special protection of vulnerable populations	Emergency response plans  Including protection for vulnerable populations	Documentaion includes Emergency Response Plan revised within the review period, and after action report from an exercise or actual event response Documentation includes evidence that vulnerable populations are addressed in the emergency response plan.	A&S EP Item 8 (Did you review/revise ERP?) Documents provided by the LHJ  Documents provided by the LHJ	Did your LHJ produce an AAR, from an exercise or real event, involving activation of PH staff, coordination with other responders, and use of	It seems to me that the possible A&S item should not be able to be answered no. We must all do this within the review period.	PHAB 5.4 ...  1.2
2	Ability to lead the 'Emergency Support Function 8 -Public Health & Medical' for the county, region, jurisdiction, and state	Lead Function 8	After action report or comparable documentation from an exercise or actual event in which the LHJ provided Public Health/Medical leadership, within the review period.	Documents provided by the LHJ	Did your LHJ produce an AAR, from an exercise or real event, involving activation of PH staff, coordination with other responders, and use of ICS?	It seems to me that the possible A&S item should not be able to be answered no. We must all do this within the review period.	PHAB 5.4 .2

3	Ability to activate emergency response personnel in the event of a public health crisis, coordinate with federal, state and county emergency managers and other first responders, and operate within, and as necessary lead, the incident management system	Ability to activate emergency response personnel  Coordinate with emergency managers and others  Operate or lead the incident management system	One or more after action report (or comparable documentation) from an exercise or actual event in which the LHJ, demonstrate the ability to..., coordinate, operate..., performed these functions... Documents could include an AAR, or other documents demonstrating LHJ participation (ex. Documents could include an AAR, an adopted EOP, or other materials demonstrating LHJ	Doc provided by LHJ (AAR) or other documents demonstrating LHJ participation (ex. Hospital plan, H1N1 report)  Documents provided by the LHJ  Documents provided by the LHJ	Did your LHJ produce an AAR, from an exercise or real event, involving activation of PH staff, coordination with other responders, and use of ICS?	It seems to me that the possible A&S item should not be able to be answered no. We must all do this within the review period.	PHAB 5.4...
4	Promote community preparedness by communicating with the public in advance of an emergency, steps that can be taken before, during, or after a <u>disaster</u>		1. Examples of activities designed to educate the public on emergency preparedness 2. Examples of public communications materials or activities involved in an exercise or actual event	Documents provided by the LHJ			PHAB 3.2

\*e.g. the kind of info needed on whether an LHJ has this Capability or does this Service

## Foundational Public Health Services - Suggested LHJ Measures

### Community Partnership Development

14-Nov-13

Item #	Foundational Capability/Service	Topic areas	Suggested LHJ Measure*	Source of Data	Possible NEW A&S Item	PHAB v.1.5
1	Ability to create and maintain relations with important partners, including health-related national, statewide, and community-based organizations; community groups or organizations representing populations experiencing health disparities; key private businesses and health care organizations; and key federal, tribal, state and local government agencies and leaders	Ability to maintain key partnerships	Evidence of activities involving local partnerships of the kind described in this item such as evidence of participation in workgroups or collaborations with others to address public health issues. Example of membership list, meeting minutes, progress reports, etc.	LHJ Docs	Existing A&S items on coalition activities (re chronic disease, assessment, access, etc) might be used here	4.1.1
2	Ability to strategically select and articulate governmental public health roles in programmatic and policy activities and coordinate with these partners	PH role in partnership	The role of public health is defined within the policy and practice of the community collalitions,can be charters, minutes, or other document describing role.	LHJ Docs		4.2.2 3.2.1.

### Communication

14-Nov-13

Item #	Foundational Capability/Service	Topic areas	Suggested LHJ Measure*	Source of Data	Possible NEW A&S Item	Comments	PHAB V 1.5 Draft
1	Ability to maintain ongoing relations with local and statewide media including ability to write a press release, conduct a press conference, and use electronic communication tools to interact with the media		Examples of activities demonstrating ability to communicate with media. Examples include of press release, press conferences, social media, newspaper articles.	Documents provided by the LHJ	Did your LHJ, or is your LHJ prepared to: a. issue press release b. conduct press conf c. use electronic comm tools (email, social media, etc) to interact with media. (Check all that apply)	Check all of the following you have done in the past ___years	3.2
2	Ability to develop and implement a communication strategy, in accordance with Public Health Accreditation Board Standards, to increase visibility of a specific public health issue and communicate risk. This includes the ability to provide information on health risks, healthy behaviors, and disease prevention in culturally and linguistically appropriate formats for the various communities	Develop and implement a communication strategy	Examples of a communication effort reflecting these abilities regarding a specific public health issue	Documents provided by the LHJ		Do we capture some of the PHAB 3.2 measures to incorporate into the A&S?	3.2
		Provide appropriate information	Documentation could include advertisements or newspaper inserts, web posting, brochure, a specific targeted campaign, or others as listed in the applicable parts of PHAB 3.2 as it is revised	Documents provided by the LHJ			3.2.5

\*e.g. the kind of info needed on whether an LHJ has this Capability or does this Service - many services

## Foundational Public Health Services - Suggested LHJ Measures

### Policy Development and Support

14-Nov-13

Item #	Foundational Capability/Service	Topic area	Suggested LHJ Measure*	Source of Data	Possible NEW A&S Item	Comments	PHAB
1	Ability to develop basic public health policy recommendations that are evidence-based and <b>legally feasible</b>	Develop policy recommendations	Examples of evidence- based public health policy recommendations to the local Board of Health or other decision makers and can include informatinal materials such as issue briefs, media statements, staff providing official department public testimony, and participation in workgroup appointed by the governing entity.	Documents provided by the LHJ			Domain 10 and 5.1.2
2	Ability to work with partners and policy makers to enact policies that are evidence-based Ability to utilize cost benefit information to develop an efficient and cost-effective action plan to respond to the priorities identified in a community and statewide health assessment, including identification of best and emerging practices, and those that respond to health inequities	Work with partners to enact pollicies that are evidence-based	1. Examples of evidence-based policy initiative(s) involving local partners 2. Example of the use of the following in the development of action plans: cost benefit information, priorities identified in a community and statewide health assessment, best emerging practices, and health inequities	Documents provided by the LHJ			5.1.3 6.1

4

Use cost benefit information to develop action plan to respond to the priorities identified in a community and statewide health assessment, including identification of best and emerging practices, and those that respond to health inequities	Documentaion could include impact statement or fact sheet of proposed policies, an evaluation of assessments, etc.	Documents provided by the LHJ

**Foundational Public Health Services - Suggested LHJ Measures**

**Business Competencies**

11/7142013

Item #	Foundational Capability/Service	Topic area	Suggested LHJ Measure*	Source of Data	Possible NEW A&S Item	PHAB v. 1.5
1.0	<b>Leadership</b> - ability to lead internal and external stakeholders to consensus and action planning (adaptive leadership) and to serve as the 'public face' of governmental public health in the community	Ability to lead intenal stakeholders	Examples of collaborative leadership involving stakeholder consensus building for action planning, such as actions on your stratigic plan, or implemetation of initiatives.	Documents provided by the LHJ		No PHAB
		Ability to lead external stakeholders	Examples of public health leaders' visibility in the community, such as chair or lead a commnity group	Documents provided by the LHJ		
2	<b>Accountability and Quality Assurance Services</b> – ability to uphold business standards and accountability in accordance with federal, state, and local laws and policies and to assure compliance with national and Public Health Accreditation Board Standards.	Ability to uphold business accountability	1. Performance or financial audits conducted within the review period. 2. Evidence of staff training on appropriate business practices such as cash handling, fraud prevention, etc 3. Evidence of accountability to Board of Health on fiscal and administrative matters ( Applicable within PHAB 11 when final)	1. Recent state audits 2. LHJ Docs 3. LHJ Docs		PHAB Domain 11

3	<b>Quality Improvement</b> – ability to continuously improve processes, including plan-do-study-act cycles		Examples of a performance management such as a specific QI initiatives using the PDSA cycle, team minutes, a project	Documents provided by the LHJ	
4	<b>Information Technology Services</b> – ability to maintain and access electronic health information to support the public health agency operations and analyze health data. Ability to support, maintain and use communication technology.	Ability to maintain and access electronic health information	Description of organization's IT staffing, infrastructure and related plans	Documents provided by the LHJ	
		Ability to support, maintain and use communication technology	Description of organization's IT staffing, infrastructure and related plans	Documents provided by the LHJ	
5	<b>Human Resources Services</b> – ability to develop and maintain a competent workforce, including recruitment, retention, and succession planning functions; training; and performance review and accountability.	HR functions	Organization's personnel policies, including any written plans regarding workforce retention and development	Documents provided by the LHJ	
6	<b>Fiscal management, contract, and procurement services</b> - ability to comply with federal, state, and local standards and policies		1. State Audit results 2. Evidence of accountability to Board for fiscal performance these are subelements of 2 etc.	1. State audit reports 2. LHJ Docs	
7	<b>Facilities and operations</b> – ability to procure, maintain, and manage safe facilities and efficient operations		Description of facilities and assessment of their safety and adequacy	Documents provided by the LHJ	
8	<b>Legal services and analysis</b> – ability to access and appropriately use legal services in planning and implementing public health initiatives		Evidence of access to appropriate legal services	Documents provided by the LHJ	Does your LHJ have access to legal services when needed? Y or N

## Foundational Public Health Services - Suggested LHJ Measures

### Communicable Disease Control

14-Nov-13

Item #	Foundational Program	Topic areas	Suggested LHJ Measure*	Source of Data	Possible NEW A&S Item	PHAB
1	Provide timely, statewide and locally relevant and <b>accurate</b> information to the state and community on communicable diseases and their control, including strategies to increase local immunization rates	Information to community on CD	Documents could include news release on recent disease issues such as pertussis, advice to providers, update on STD rates, distribution of a press release, flyer or public service announcement.	Documents provided by the LHJ		2.1.2 but does not include all of immun 3.1.1 is part of it.
		Strategies to increase local immunization rates	Summarize LHJ efforts to increase immunization rates such as advice to providers, press releases, etc.	Documents provided by the LHJ		
2	Identify statewide and local communicable disease control community assets, develop and implement a prioritized communicable disease control plan, and advocate and seek funding for high priority policy initiatives	Identify communicable disease control community assets	1. LHJ's Communicable Disease Control Plan or equivalent, including disease investigation protocols. 2. Example of advocacy related to CD initiatives or policies	Documents provided by the LHJ		
		Develop and implement a prioritized communicable disease control plan Advocate and seek funding for high priority policy initiatives	CD Plan  Examples include BOH briefng,, legislative advocacy,	Documents provided by the LHJ  Documents provided by the LHJ		2.1.5 (partial)

	Ability to receive laboratory reports and other identifiable data, conduct disease investigations, including contact notification, and recognize, identify and respond to communicable disease outbreaks for notifiable conditions in accordance with national and state mandates and guidelines	Receive laboratory reports and other identifiable data  Conduct disease investigations, including contact notification  Respond to communicable disease outbreaks for notifiable conditions	1. Notifiable case reports submitted by LHJ to DOH 2. Timeliness of completing notifiable case investigations  Documentation includes a tracking log or audit on reporting with timeliness.  Documentation includes disease investigation protocols updated within the required time period	Documents provided by the LHJ  Documents provided by the LHJ  Documents provided by the LHJ	Timeliness of provider reporting	
3			Description of LHJ program and procedures for tx or assurance for cases of this kind	Documents provided by the LHJ	Ask if LHJ does or assures these activities for these diseases	2.15 no PHAB
4	Assure the availability of partner notification services for newly diagnosed cases of syphilis, gonorrhea, and HIV according to CDC guidelines	Partner notification				
5	Assure the appropriate treatment of individuals who have active tuberculosis, including the provision of directly-observed therapy according to Centers for Disease Control and Prevention (CDC) guidelines	Treatment for active TB	Description of LHJ program and procedures for tx or assurance for active TB cases	Documents provided by the LHJ	Change A&S item on this so it's clear we want to know if they tx/assure even if had no TB cases in past year	no PHAB
6	Assure availability of public health laboratory services for disease investigations and response, and reference and confirmatory testing related to communicable diseases	Public health laboratory services	Primarily a state function. Documentation of access to and agreement to use state lab, including policies and procedures for 24/7 lab coverage, capacity and certification. MOUs or other agreements.	Documents provided by the DOH and LHJ	Does your LHJ have access to the state lab?	

7 Coordinate and integrate other categorically-funded communicable disease program and services	Other CD	Description of the LHJ's other CD programs (if any) and the way they are managed in coordination with other CD activities	Documents provided by the LHJ
---	----------	---	-------------------------------

## Foundational Public Health Services - Suggested LHJ Measures

### Chronic Disease and Injury Prevention

14-Nov-13

Item #	Foundational Program	Topic area	Suggested LHJ Measure*	Source of Data	Possible NEW A&S Item	PHAB
1	Provide timely, statewide and locally relevant and accurate information to the state and community on chronic disease prevention and injury control	Info to community on chronic disease	Examples of information provided to the community on Chronic Disease prevention and injury control (e.g., CHA or Annual Report section, community education activities , news releases, fact sheets, web	Documents provided by the LHJ		2.1.3 and 1.1 for the CHA.and 3.1.2
2	Identify statewide and local chronic disease and injury prevention community assets, develop and implement a prioritized prevention plan, and advocate and seek funding for high priority policy initiatives	Chronic disease prevention assets and plan	Documentation includes LHJ's Chronic Disease Prevention Plan or equivalent, and example of advocacy related to high priority Chronic Disease initiatives or policies	Documents provided by the LHJ		no PHAB
3	Reduce statewide and community rates of tobacco use through a program that conform to standards set by Washington laws and CDC's Office on Smoking and Health, including activities to reduce youth initiation, increase cessation and reduce secondhand	Tobacco reduction	Description of LHJ tobacco control activities , including clean air act enforcement	Documents provided by the LHJ	Check any of the tobacco program elements listed below that your LHJ offers: a. reduce youth initiation b. increase cessation c. reduce 2nd hand smoke	no PHAB

4	Work actively with statewide and community partners to increase statewide and community rates of healthy eating and active living through a prioritized program of best and emerging practices aligned with national and state guidelines for healthy eating and	Increase healthy eating and living	Summary of LHJ activities on healthy eating and active living, for example annual report, program summaries or presentiaions to board.	Yes' on any of the A&S Prevention and Wellness LHJ Survey items 2,6,10,14,18,22,30 or 34. These whether the LHJ is engaged in such initiatives.	no PHAB
5	Coordinate and integrate other categorically-funded chronic disease and injury prevention programs and services	Other chronic disease	Description of the LHJ's other Chronic Disease programs (if any) and the way they are managed in coordination with other Chronic Disease activities	Documents provided by the LHJ	no PHAB

\*e.g. the kind of info needed on whether an LHJ has this Capability or does this Service - many services have shared

## Foundational Public Health Services - Suggested LHJ Measures

### Environmental Public Health

14-Nov-13

Item #	Foundational Program	Topic areas	Suggested LHJ Measure*	Source of Data	Possible NEW A&S Item	PHAB
1	Provide timely, statewide and locally relevant and accurate information to the state and community on environmental public health issues and health impacts from common environmental or toxic exposures	EH Information - timely, relevant	Examples of information provided to community on EH issues (e.g., CHA or Annual Report section, or other program reports, fact sheets).	Documents provided by the LHJ - A&S Drinking water alerts	After action reports, Local LHJ websites, Recent publicizing of local PH events, Emergency response AARs	NO PHAB
2	Identify statewide and local community environmental public health assets and partners, and develop and implement a prioritized prevention plan to protect the public's health by preventing and reducing exposures to health hazards in the environment	statewide and local community assets and partners  prioritized prevention plan	LHJ's EH Plan or equivalent or contained within a larger plan  LHJ's EH Plan or equivalent (or contained within a larger plan)	Documents provided by the LHJ  Documents provided by the LHJ	CHA/ CHIP  CHIP	No PHAB

3	Conduct mandated environmental public health laboratory testing, inspections and oversight to protect food, water recreation, drinking water, and liquid and solid waste streams in accordance with federal, state, and local laws and regulations	Lab testing inspection and oversight	<ol style="list-style-type: none"> <li>1. Document regulatory activities in the food safety, water recreation, drinking water, solid waste and on-site septic programs.</li> <li>2. Protocols for investigation process including assignment of responsibilities? (Based on PHAB 2.1.1)</li> <li>3. Protocols defining the problems to be investigated, the investigation steps, timeliness of investigation and reporting requirements? (Based on PHAB 2.1.1)</li> </ol>	<p>A&amp;S LHJ docs.</p> <ol style="list-style-type: none"> <li>1. Non-zero values in A&amp;S LHJ EH Survey items 2,8,9,13,15,17. These items ask about activities in the relevant programs.</li> <li>2. Document Quality assurance activities in these programs that accord with federal, state regulations.</li> </ol>	MOU for state services	2.1.1
4	Identify and address priority notifiable zoonotic (e.g., birds, insects, rodents) conditions, air-borne and other public health threats related to environmental hazards		Summarize activities and priority issues related to non mandated other important issues needing response including zoonotic, air-borne or other public health threats not addressed by #3 above or other EH threats.	Documents provided by the LHJ		no PHAB
5	Protect workers and the public from unnecessary radiation exposure in accordance with federal, state, local laws and regulations [state function]	Radiation	Primarily a state function			
6	Participate in broad land use planning and sustainable development to encourage decisions that promote positive public health outcomes (e.g. consideration of housing, urban development, recreational facilities and	Land use planning and sustainable development	Summarize activities related to local land use planning, beyond the specific regulatory programs addressed in #3 above Participation in local efforts, CHIP or CHA or other documents	Documents provided by the LHJ	CHIP	

transport) **Coordinate and integrate other categorically-funded environmental public health programs and services (suggest this be a separate**

other categorically-funded EPH programs and services

Summarize the LHJ's other EH programs (if any) and describe how they are managed in coordination with other EH programs

Documents provided by the LHJ

CHIP

## Foundational Public Health Services - Suggested LHJ Measures

### Maternal/Child/Family Health

7-Nov-13

Item #	Foundational Program	Topic areaTopic area	Suggested LHJ Measure	Source of Data	PHAB
1	Provide timely, statewide and locally relevant and accurate informaion to the state and community on emerging and on-going maternal child health trends taking into account the importance of Adverse Childhood Experiences (ACEs) and health disparities	Information on trends and ACEs	Examples of reports to community on MCH issues (e.g., CHA, or Annual Report section)	Documents provided by the LHJ	
2	Assure mandated newborn screening done by the state public health lab to test every infant born in Washington, to detect and prevent the developmental impairments and life-threatening illnesses associated with congenital disorders that are specified by the State Board of Health [State Only]	Newborn screening	This is a state function	A&S	
3	Identify, disseminate, and promote emerging and evidence-based information about early interventions in the prenatal and early childhood period that optimize lifelong health and social-emotional development	Promote early interventions	Example of activities disseminating and promoting such information (e.g. CHA, Annual Report, participation in local MCH coalitiions addressing these issues, etc.)	Documents provided by the LHJ	PHAB 10.1.1
	Identify local maternal and child health community assets; using life course expertise and an understanding of health disparities, develop a prioritized prevention plan; and advocate and seek funding for high priority policy initiatives	Identify community assets	1. LHJ's MCH Plan or equivalent 2. Example of advocacy related to MCH initiatives or policies	Documents provided by the LHJ	

4		Prevention plan	LHJ's MCH Plan or equivalent	Documents provided by the LHJ	no PHAB
		Seek funding	Example of advocacy related to MCH initiatives or policies	Documents provided by the LHJ	no PHAB
5	Coordinate and integrate other categorically funded maternal, child, and family health programs and services		Document the LHJ's other MCH programs (if any) and describe the way they are managed in cooperation with other MCH activities	Documents provided by the LHJ	no PHAB

\*e.g. the kind of info needed on whether an LHJ has this Capability or does this Service - many services have shared LHJ and DOH responsibility

## Foundational Public Health Services - Suggested LHJ Measures

### Access/Linkage with Clinical Health Care

15-Nov-13

Item #	Foundational Program	Topic area	Suggested LHJ Measure	Source of Data	PHAB
1	Provide timely, statewide and locally relevant and accurate information to the state and community on the clinical healthcare system.	the community's clinical health care system	Examples of reports to community on the health care system (e.g., CHA or Annual Report section)	Documents provided by the LHJ	7.1.1
2	<b>Improve patient safety</b> through inspection and licensing of healthcare facilities and licensing, monitoring, and discipline of healthcare providers [state function]	licensing of healthcare facilities and providers  monitoring and discipline of healthcare providers	This is a state function  This is a state function		
3	In concert with national and statewide groups and local providers of health care, identify healthcare assets; develop prioritized plans for increasing access to health homes and quality health care, and advocate and seek funding for high priority policy initiatives	Identify healthcare assets  Develop prioritized plans for increasing access to health homes and quality health care  Advocate and seek funding for high priority policy initiatives	LHJs access/linkage plan or equivalent identify gaps, analysis of data and strategies. Could be part of CHA. Examples include reports of analysis of data from various partnership sources that identify and describe gaps in access including assessment of capacity, availability and causes of lack of access. Documents include advocacy for access linkages- presentations to providers, LBOH	A&S Access LHJ Survey item 17 = 'yes' regarding participation in community coalition on access	7.1.1  7.1.3

4	Provide state-level health system planning (place-holder – will work on clearer language).	Health system planning	This is a state function	
5	Coordinate and integrate other categorically-funded clinical health care programs and services	Other clinical care	Document the LHJ's other health care access efforts (if any) and describe how they are managed in coordination with other health care access programs	Documents provided by the LHJ

no PHAB
