Page 7, Q13. Do you have any suggestions for improving the website? If so, please describe.

1	NOt that I can think of although it has been awhile, have heard from other leadership staff that they have trouble locating the latest LPHIs at times, in fact I get inquiries quite a bit from our own staff on location on the DOH website.	Oct 18, 2012 1:41 PM
2	I forget the web site is available so I rarely use it.	Oct 12, 2012 12:11 PM
3	Suggestions: increase number of indicators. I appreciate the thorough technical notes sections. During the DOH website transition, this page was very difficult to find, though it hadn't actually changed. Be sure that it is easy to navigate to within the new DOH website.	Oct 10, 2012 11:20 AM
4	None	Oct 9, 2012 4:22 PM
5	I appreciate the trend data reports you've added for each local indicator and the addition of environmental health indicators. Thank you!	Oct 3, 2012 3:13 PM
6	None at this time	Oct 3, 2012 9:48 AM
7	More visible link on DOH website.	Oct 1, 2012 12:27 PM
8	I would like to see percentages with one decimal point.	Sep 25, 2012 3:36 PM
9	indicators are bare. not compared over time, links to additional info would be great.	Sep 14, 2012 12:22 PM
10	very easy to access, covers a lot of information, provides good templates!	Sep 14, 2012 11:59 AM
11	Better labels for trend graphs, increase copy/paste options (for example, being able to copy a graph that includes the key and additional information all together into new location). Have time trends & comparison to other counties AND state on the same page. Compare to national trends & measures.	Sep 14, 2012 11:11 AM
