

Public Health Indicator Data Description and Collection Form

| | |
|---|--|
| Health Indicator # | Gonorrhea |
| Numerator: | Number of reported cases of gonorrhea |
| Denominator: | Population of geographic area (national, state, county) |
| Source of data: | Numerator: Infectious Disease and Reproductive Health, STD Management Information System; Denominator, OFM |
| Target or Goal: | To be discussed |
| Who will collect this information: | IDRH |
| What tool will be used to collect these data? | DOH STD Case Reports |
| How often will the data be analyzed and reported? | Annually |
| Baseline measurement dates: | Available annually beginning in 1992 |
| 1 st remeasurement dates: | Annually |
| Health Indicator # | Tuberculosis |
| Numerator: | Number of reported cases of tuberculosis |
| Denominator: | Population of geographic area (national, state, county) |
| Source of data: | Numerator: Infectious Disease and Reproductive Health, TB Information Management System; Denominator, OFM |
| Target or Goal: | To be discussed |
| Who will collect this information: | IDRH |
| What tool will be used to collect these data? | DOH TB Case Reports |
| How often will the data be analyzed and reported? | Annually |
| Baseline measurement dates: | Available annually beginning in 1950 |
| 1st remeasurement dates: | Annually |

Public Health Indicator Data Description and Collection Form

| | |
|---|--|
| Health Indicator # | HIV – new diagnoses |
| Numerator: | Number of newly diagnosed cases of HIV (regardless of diagnostic status) |
| Denominator: | Population of geographic area (national, state, county) |
| Source of data: | Numerator: Infectious Disease and Reproductive Health, HIV/AIDS Reporting System; Denominator, OFM |
| Target or Goal: | To be discussed |
| Who will collect this information: | IDRH |
| What tool will be used to collect these data? | DOH HIV/AIDS case reports |
| How often will the data be analyzed and reported? | Annually |
| Baseline measurement dates: | Available annually beginning in 2000 |
| 1st remeasurement dates: | Annually |
| Health Indicator #: | Childhood Immunization |
| Numerator: | Partial data available from Child profile. Not all children's records in Child profile are in CP and not all records in CP are complete. |
| Denominator: | Population of geographic area (national, state, county) |
| Source of data: | CHILD profile |
| Target or Goal: | To be discussed |
| Who will collect this information: | IDRH |
| What tool will be used to collect these data? | Child profile |
| How often will the data be analyzed and reported? | Annually |
| Baseline measurement dates: | Baseline data varies by provider and no vaccine information is available for children seen by health care providers not using CHILD profile. |
| 1st remeasurement dates: | Annually |

Public Health Indicator Data Description and Collection Form

| | |
|---|--|
| Health Indicator #: | Percent of public swimming pools with one or more critical violations during time period |
| Numerator: | # of public swimming pools with one or more critical violations during period |
| Denominator: | # of public swimming pools inspected during the time period |
| Source of data: | Counties |
| Target or Goal: | ? 10% |
| Who will collect this information: | DOH? |
| What tool will be used to collect these data? | To be decided- DOH Managed Web site (similar to EH Pilot site) |
| How often will the data be analyzed and reported? | Quarterly |
| Baseline measurement dates: | |
| 1 st remeasurement dates: | |
| Health Indicator #: | Adult Tobacco Use |
| Numerator: | Weighted number of adults (population estimate) who report smoking every day or some days in response to the question "Do you now smoke cigarettes every day, some days, or not at all?" |
| Denominator: | Weighted number of adults (population estimate) |
| Source of data: | BRFSS |
| Target or Goal: | HP 2010 goal: reduce adult tobacco use to 12 %. |
| Who will collect this information: | BRFSS |
| What tool will be used to collect these data? | BRFSS questionnaire |
| How often will the data be analyzed and reported? | Annual |
| Baseline measurement dates: | 1998: WA: 21.4%. 2005: WA 17.6%, data are available annually |
| 1st remeasurement dates: | Self report reliability may be affected by social desirability. |

Public Health Indicator Data Description and Collection Form

| | |
|---|--|
| Health Indicator # | Percent 10 th graders who are overweight. Available for most counties – see technical notes. |
| Numerator: | Number who report heights and weights that place them in the top 5% BMI based on CDC growth charts, using YRBS coding |
| Denominator: | Number who answer the height and weight questions |
| Source of data: | Healthy Youth Survey |
| Target or Goal: | |
| Who will collect this information: | Joint Survey Planning Committee |
| What tool will be used to collect these data? | Healthy Youth Survey |
| How often will the data be analyzed and reported? | Every 2 years |
| Baseline measurement | Data available for 2002, 2004, |
| 1st remeasurement: | Expected 2006 |
| Health Indicator # | Percent 10 th graders who report smoking marijuana in last 30 days (alternative: Percent 10 th graders who report using any illegal drug) |
