Health Care Reform: Impact on Public Health
November 2012

Department of Health's Current Health Reform Efforts

- Actively engaged with national partners
- Working closely with sister state agencies
- Identifying policy and budgetary impacts to specific programs

Department of Health's Current Health Reform Efforts continued

- Communicating with partners
- Putting the *Agenda for Change* action plan in practice
- Implementing grant activities supported by the Prevention and Public Health Fund

Prevention and Community Health

Community Transformation Grant (CTG)

Tobacco-free, active living,
healthy eating,
preventive services

Immunization Grants

Delivery systems,
ordering/tracking,
help with billing, and
improving rates

HealthPath Washington Initiative

Health Home networks for 30,000 dual eligible
Medicare-Medicaid clients, and
training support
