Health Professions Credentialing Requirements Handbook

https://www.doh.wa.gov/LicensesPermitsandCertificates/ProfessionsNewReneworUpdate/HealthcareProfessionalCredentialingRequirements
Evaluating military training and experience toward meeting licensing requirements in medical professions **ESSB 5307** <http://apps.leg.wa.gov/billinfo/summary.aspx?bill=5307&year=2011> enacted in 2011, is a complex bill that impacts 22 health professions. This bill provides that the military training and experience for these professions satisfies the licensing requirements unless the department finds it is not substantially equivalent. The Department of Health is committed to:

- Identifying the various military healthcare occupations that are equivalent to Washington state professions.
- Creating a military to civilian “crosswalk” and other tools to identify equivalent professions and skill levels.
- Identifying gaps in military training that can be closed through additional courses.
- Partnering with educational institutions in order to offer programs and courses that address these gaps. Specifically, we’re looking at options to address gap(s) without having professionals repeat training or experience on the civilian side that they got in the military.

Professional licensing of military spouses relocating to Washington **ESSB 5969** <http://apps.leg.wa.gov/billinfo/summary.aspx?bill=5969&year=2011> enacted in December 2011 requires the department to expedite licensing for spouses of military personnel who move to Washington state. Additionally, since March 2012, we’ve offered temporary practice permits for military spouses who hold health profession licenses in good standing with other states. This allows military spouses to practice with the full scope of their health professions while completing the rest of Washington’s credentialing process.

Military spouses or registered domestic partners occupational licensing status during displacement outside Washington **SB 6290** <http://apps.leg.wa.gov/billinfo/summary.aspx?bill=6290&year=2011> since early 2013, if relocating due to military member being deployed or transferred out of state, are not required to pay renewal fees, and allows reinstatement when they return.
