- Acquired immunodeficiency syndrome (AIDS) (including AIDS in persons previously reported with HIV infection)
- Arboviral disease (West Nile virus disease, dengue, Eastern & Western equine encephalitis, etc.)
- Brucellosis*
- Burkholderia mallei or pseudomallei*
- Campylobacteriosis
- Chancroid
- Chlamydia trachomatis
- Cryptosporidiosis
- Cyclosporiasis
- Enterohemorrhagic E. coli (see Shiga toxin-producing E. coli)
- Giardiasis
- Gonorrhea
- Granuloma inguinale
- Haemophilus influenzae
- Invasive disease
- Hantavirus pulmonary syndrome
- Hepatitis A – Acute
- Hepatitis B – acute
  (initial diagnosis only)
- Hepatitis B – surface antigen
  + pregnant women
- Hepatitis C – acute
- Hepatitis D – Acute
- Hepatitis E – Acute
- Herpes simplex
- HIV infection
- Immunization reactions
  (severe, adverse)
- Influenza-associated death
  (lab confirmed)
- Legionellosis
- Leptospirosis
- Listeriosis
- Lyme disease
- Lymphogranuloma venereum
- Malaria
- Meningococcal disease
- Monkeypox
- Mumps
- Pertussis
- Prion disease
- Psittacosis*
- Q Fever*
- Rabies, suspected human exposure
- Relapsing fever
- Rubella
- Salmonellosis
- Shiga toxin-producing E. coli
  infections (enterohemorrhagic
  E. coli including but not limited
to, E. coli O157:H7)
- Shigellosis
- Syphilis
- Tetanus
- Trichinosis
- Tuberculosis
- Typhoid fever
- Vaccinia transmission
- Vancomycin-resistant Staphylococcus aureus
  (not to include vancomycin-
  intermediate)
- Varicella-associated death
- Vibriosis
- Yersiniosis
- Other rare disease of public health significance
- Unexplained critical illness or death

* If bioterrorism is suspected, case must be immediately reported.

**Reportable to:**

1. Communicable Disease Epidemiology  1-877-539-4344
2. Infectious Disease and Reproductive Health  STDs: 360-236-3460  TB: 360-236-3443
3. Immunization Program CHILD Profile  (fax)  360-236-3590
