*Preferred specimen type, if applicable  **All specimens must be shipped meeting IATA, OSHA, and USPS requirements.  NA: Not Applicable  Last Revised: March 2015*
Specimen Collection and Submission Instructions
R/O Shigella species (Version 1)
Page 2 of 2

General Rejection Criteria (for additional details, see S&H)

- Unaccepted specimen type.
- Leaky specimen.
- Failure to follow specific S&H requirements.

NOTE:
Specimens will not be processed until ALL of the following information are provided on requisition form:

- Patient name, patient’s county of residence, and second identifier.
- Two matching identifiers on both the tube and the laboratory requisition form.
- Specimen type, date of collection, and test requested.
- Submitter name, address, and telephone/FAX numbers.
- Reason for testing at WAPHL.

Collection kit availability

- Stool: Available.
- Rectal swab: Not available.

Comments

- Workers and children with shigellosis require two negative stool specimens before returning to work or child care.
- Rectal swabs: Rectal swabs are less sensitive than stool specimens and are not recommended in adults. Please contact CDE for exceptions and special arrangements.
