- Washington State set: 4 LHJs including Asotin, Chelan-Douglas, Garfield, and Snohomish
- Basic set: other 20 LHJs, except Okanogan which did not submit for Standards review

Non-Comparability with Earlier Cycles

3

No comparability between earlier Standards results and the 2011 Standards results:

- Standards changed to PHAB requirements
- Basic set (only 35 measures) changes included:
 - ✦ Only 2 “program review” measures and just for CD and EH
 - ✦ Some measures changed from program review to agency type of review
 - ✦ Some measures had 1 or more requirements eliminated
 - ✦ Some measures required just 1 example instead of 2 to demonstrate measure
