ACCESS TO CARE STRATEGIES

6

- Information
- Leadership
- Education

INFORMATION STRATEGIES

7

- Provide information about the capacity of the health care delivery system within their community so that local participants can develop plans to close gaps

- Action:

- Action

INFORMATION STRATEGIES

8

- Provide information about how people use the health care system (utilization data) in their communities so that inefficient use can be identified, and providers can help people navigate the system effectively and efficiently

- Action:

- Action

INFORMATION STRATEGIES

9

- Provide information about financing barriers so that health care partners delineate where payment is a problem

- Action:

- Action

INFORMATION STRATEGIES

10

- Provide information about the health status of the community including behavioral health, access to care, quality, outcomes, and gaps so that community leaders, health care providers and other decision makers can make informed decisions how to best meet local need

- Action:

- Action

LEADERSHIP STRATEGIES

11

- Connect LHJs with local hospitals and other provider groups so that meaningful community health assessments and can be developed. This includes connecting behavioral health, primary care, specialty care, dental care

- Action:

- Action

EDUCATION STRATEGIES

14

- Prioritize and expand the use by providers of evidence-based clinical prevention services (proven to be both effective and cost saving) endorsed by the National Commission on Prevention Priorities Services (**National Quality Strategy**)

- Action:

- Action

EDUCATION STRATEGIES

15

- Promote the adoption of primary care medical homes to recognize the benefits of increased access to health care, continuity of care, and patient-centered care

- Action:

- Action

TOPIC 3: BEHAVIORAL HEALTH

16

- What role should public health play in promoting better mental health and preventing clinical behavioral health issues?
- What are the barriers to accessing behavioral health and substance abuse/addictive services?
- What can public health do to improve the continuum of care in your community?
