## Seven Steps to Enhance HIV Community Services in Washington State: A Plan Forward

### What is the topic of the webinar?

This webinar is an opportunity to hear and talk about the white paper describing plans to enhance HIV Community Services. The paper will be available June 17, 2015. It provides background information that informed our review of existing services. It describes recommendations to address the current opportunities related to services including PrEP use and HIV treatment. We want to gather input from as many people as possible regarding the proposed recommendations. This is the first of many chances for input.
