

# Attention **DOG** Lovers

*& Tick Haters!*

Ticks can make you and your dog sick with diseases like Rocky Mountain spotted fever and Lyme disease.

**Take Survey**

Take our short online survey if you live in Washington and own or work with dogs—even if your dog has never had a tick.

Your input will help us learn more about the diseases spread by ticks and the risk they pose to you.

Go to [www.doh.wa.gov/surveys/dogtick](http://www.doh.wa.gov/surveys/dogtick). Thanks!
