Guide By Your Side Provides...

- a compassionate and knowledgeable Parent Guide to listen and share resources
- unbiased support and advocacy
- free support to WA State families

Why is Parent Support Important?

- Families learn about all communication options and resources.
- Families learn from knowledgeable Parent Guides who share their family experiences traveling down the same path.
- Families are empowered to make the best decisions for their child as they are guided to navigate challenging systems.

Guide By Your Side is a program of Washington Hands & Voices and is dedicated to supporting families with children who are deaf, hard of hearing or deaf-blind, without a bias towards communication modality. We are a parent-driven, non-profit organization, providing families with resources, networks, and information needed to improve and help to ensure communication and educational outcomes for their children.
