

Primary Care Provider Survey Summary Report: Clark County

Survey year: 2009

The Department of Health (DOH) conducts the Primary Care Provider Survey to obtain health care access data. This data is used in the [Health Professional Shortage Area \(HPSA\)](#) designation analysis. HPSA is a federal program administered by the federal Office of [Health Resources and Services Administration \(HRSA\)](#). A HPSA designation identifies areas with provider shortages for underserved and uninsured populations. To learn more about the program please see the [HPSA Overview](#).

This summary report reflects provider survey responses. The department makes every attempt to establish a close to accurate number of providers by collecting lists from local health departments, the National Provider Identifier Registry and other sources. To meet federal guidelines in the analysis the target response rate is >75%. This report offers an aggregate summary of the survey responses.

For questions about the survey data, methodology, and related information please contact Phi Ly at Phi.Ly@doh.wa.gov or by phone at (360) 236-2825. Information on other counties can be found on the [Health Care Access Research Page](#).

GENERAL DEFINITIONS		
Primary Care Provider	Health care professionals who serve as the initial point of contact in the assessment and management of a patient's health care needs. This includes: preventative care; treatment of health ailments; management of chronic illness and conditions; and additional care defined by the practitioner's specialty.	
Provider Types and Credentials	<i>Primary care providers are defined by HRSA and exclude naturopathic doctors. For survey purposes credentialing types licensed by the department were used.</i>	
	<table border="0"> <tr> <td> Physicians: <ul style="list-style-type: none"> • Doctor of Medicine (M.D.) • Doctor of Osteopathy (D.O.) </td> <td> Mid-levels: <ul style="list-style-type: none"> • Physician Assistant (P.A.-C.) • Certified Nurse Midwife (C.N.M.-A.R.N.P.) • Licensed Midwife (L.M.) • Advanced Registered Nurse Practitioners (A.R.N.P.) </td> </tr> </table>	Physicians: <ul style="list-style-type: none"> • Doctor of Medicine (M.D.) • Doctor of Osteopathy (D.O.)
Physicians: <ul style="list-style-type: none"> • Doctor of Medicine (M.D.) • Doctor of Osteopathy (D.O.) 	Mid-levels: <ul style="list-style-type: none"> • Physician Assistant (P.A.-C.) • Certified Nurse Midwife (C.N.M.-A.R.N.P.) • Licensed Midwife (L.M.) • Advanced Registered Nurse Practitioners (A.R.N.P.) 	
Primary Care Specialty	<i>Primary care specialties are defined by HRSA and exclude specialized care for any of the below listed specialties as well as emergency room, locum tenens (substitutes), hospitalists, occupational medicine, urgent or walk-in clinics, free clinics, and Department of Corrections facilities.</i>	
	<ul style="list-style-type: none"> • Family Practice or General Practice • General Internal Medicine • General Pediatrics • General Geriatrics • General Obstetricians/Gynecology

Major City/Town (Population)	<ul style="list-style-type: none"> • Vancouver (164,500) • Battle Ground (17,150) • Camas (16,9850) • Washougal (13,870) • Ridgefield (4,215) 	
		

Primary Care Provider Survey Summary Report: Clark County

Survey year: 2009

Provider Headcount	The DOH determined the number of providers within the county by compiling listings from several sources.	
	Mid-level headcount is not readily available and is collected for other healthcare analysis. Mid-level capacity is excluded in the HPSA analysis.	
	Physicians: 259	Mid-levels: 63
Survey Respondents	Respondent is the number of survey responses submitted. Responses were achieved by direct contact and mailings to clinics.	
	Physicians: 248 (96% of surveyed physicians)	Mid-levels: 59
Primary Care Specialty Some respondents did not select a specialty	Family Practice: 122 General Practice: - Internal Medicine: 55 General Pediatrics: 42 General Geriatrics: - OB/Gynecology: 32	Family Practice: 36 General Practice: - Internal Medicine: 10 General Pediatrics: 3 General Geriatrics: - OB/Gynecology: 12
Provider Full-Time Equivalency (FTE)	Full-time equivalent is the sum of reported primary care hours (weekly hours >40 were adjusted to 40) then divided by 40 to obtain the total FTE for the county.	
	One FTE = 40 hours direct patient care per week.	
	184.6 Physician FTE	44.5 Mid-level FTE
PROVIDER CHARACTERISTICS		
Proportion Calculations	Proportions are calculated with: <ul style="list-style-type: none"> • Numerator: counts of respondent primary care providers who indicate the listed characteristic • Denominator: total respondents (physicians and mid-levels) <ul style="list-style-type: none"> ○ Clark County: n=307, unless noted 	
Hospital Admitting Privileges	81% of providers, or 230 physicians and 18 mid-levels, have hospital admitting privileges.	
Hospital(s)	<ul style="list-style-type: none"> • Legacy Salmon Creek Hospital (Vancouver) • Southwest Washington Medical Center (Vancouver) • Adventist Medical Center (Portland, OR) 	
Additional Languages	38% of providers, or 76 physicians and 10 mid-levels, offer additional spoken languages at their practice. (n=224) Identified languages include: <ul style="list-style-type: none"> • Spanish • Chinese • Korean • Russian • Vietnamese • Japanese 	
Other Service	53% of providers, or 100 physicians and 19 mid-levels (n=224), have other interpretive services that include: <ul style="list-style-type: none"> • Sign language • Language translation 	

Primary Care Provider Survey Summary Report: Clark County

Survey year: 2009
