

Primary Care Provider Survey Summary Report: Grays Harbor County

Survey year: 2013

The Department of Health (DOH) conducts the Primary Care Provider Survey to obtain health care access data. This data is used in the [Health Professional Shortage Area](#) (HPSA) designation analysis. HPSA is a federal program administered by the federal Office of [Health Resources and Services Administration](#) (HRSA). A HPSA designation identifies areas with provider shortages for underserved and uninsured populations. To learn more about the program please see the [HPSA Overview](#).

This summary report reflects provider survey responses. The department makes every attempt to establish a close to accurate number of providers by collecting lists from local health departments, the National Provider Identifier Registry and other sources. To meet federal guidelines in the analysis the target response rate is >75%. This report offers an aggregate summary of the survey responses.

For questions about the survey data, methodology, and related information please contact Natalie Ogle at Natalie.Ogle@doh.wa.gov or by phone at (360) 236-2832. Information on other counties can be found on the [Health Care Access Research Page](#).

GENERAL DEFINITIONS		
Primary Care Provider	Health care professionals who serve as the initial point of contact in the assessment and management of a patient's health care needs. This includes: preventive care; treatment of health ailments; management of chronic illness and conditions; and additional care defined by the practitioner's specialty.	
Provider Types and Credentials	Primary care providers are defined by HRSA and exclude naturopathic doctors. For survey purposes credentialing types licensed by the department were used.	
	Physicians: <ul style="list-style-type: none">• Doctor of Medicine (M.D.)• Doctor of Osteopathy (D.O.)	Mid-levels: <ul style="list-style-type: none">• Physician Assistant (P.A.-C.)• Certified Nurse Midwife (C.N.M.-A.R.N.P.)• Licensed Midwife (L.M.)• Advanced Registered Nurse Practitioners (A.R.N.P.)
Primary Care Specialty	Primary care specialties are defined by HRSA and exclude specialized care for any of the below listed specialties as well as emergency room, locum tenens (substitutes), hospitalists, occupational medicine, urgent or walk-in clinics, free clinics, and Department of Corrections facilities.	
	<ul style="list-style-type: none">• Family Practice or General Practice• General Internal Medicine• General Pediatrics• General Geriatrics• General Obstetrics/Gynecology
