

## Dental Care Provider Survey Summary Report: Walla Walla County

Survey year: 2012

The Department of Health (DOH) conducts the Dental Care Provider Survey to obtain health care access data. This data is used in the [Health Professional Shortage Area](#) (HPSA) designation analysis. HPSA is a federal program administered by the federal Office of [Health Resources and Services Administration](#) (HRSA). A HPSA designation identifies areas with provider shortages for underserved and uninsured populations. To learn more about the program please see the [HPSA Overview](#).

This summary report reflects dental survey responses. The department makes every attempt to establish a close to accurate number of dentists by collecting lists from local health departments, the National Provider Identifier Registry and other sources. To meet federal guidelines in the analysis the target response rate is >75%. This report offers an aggregate summary of the survey responses.

For questions about the survey data, methodology, and related information please contact Yashonda Wilson at [Yashonda.Wilson@doh.wa.gov](mailto:Yashonda.Wilson@doh.wa.gov) or by phone at (360) 236-2832. Information on other counties can be found on the [County Data web page](#).

GENERAL DEFINITIONS	
<b>Primary Dental Care Provider</b>	Healthcare professionals who provide comprehensive oral health by treating dental concerns and diseases and promoting prevention by providing oral health literacy. Hygienists, denturists, and specialists not providing primary dental care were excluded.
<b>Provider Types and Credentials</b>	Primary dental care providers are defined by HRSA. For purposes of this survey credentialing types licensed by the State of Washington were used.
	Dentists: <ul style="list-style-type: none"> <li>• Doctor of Dental Surgery (D.D.S.)</li> <li>• Doctor of Dental Medicine (D.M.D.)</li> </ul>
<b>Primary Specialty</b>	<ul style="list-style-type: none"> <li>• General Dentistry</li> <li>• Pediatric Dentistry</li> </ul>
