| Main Activity | |
| Partial Activity | |
| No activity | |
| Future Activity | |

Please read the tabs below to see the working definition that I am using for these activities. I understand that I won't be able to capture all of the work that every organization does, but I would like to catch the areas where we are aligned, as well as to identify opportunities to network with each other and collaborate on complementary activities. If you would like to add your organization name with a description of the activities on the tabs, feel free if you would like to share but this is optional.
