

### Immunization Partners

This update includes the shipping file for the week of 1/2/2012, information about a new McKesson packing list, a note about the extension of the flu vaccine pre-book survey, and the vaccine ordering data for calendar year 2011.

### **General Vaccine Ordering Update:**

The shipping file for the week of 1/2/2012 is attached.

### **New McKesson Packing List:**

McKesson changed their packing list. The changes are effective immediately. If a vaccine is on backorder, the provider will see that information on the packing list. We will continue to notify you immediately if we know of any backorder situations. A sample packing list is attached.

### **2012-2013 Provider Flu Vaccine Pre-book Survey:**

We extended the 2012-2013 provider flu vaccine pre-book survey. It closes January 13, 2011 (a week from today). About 20% of providers responded so far. We would like to get at least a 40% response rate if possible. If you can remind providers about the survey again, we'd appreciate it. We are resending this message to the provider professional organizations and we posted it to the Child Profile login page. The website for the survey is:

<http://www.wafluvaccine.org>

For technical assistance with the survey e-mail [help@wafluvaccine.org](mailto:help@wafluvaccine.org) or contact us at 1-866-984-3638.

### **2011 Vaccine Order Data:**

The attached workbook (2011 Provider Orders by LHJ) includes vaccine order totals by provider for 2011. The data is broken out with a tab for each LHJ. The data includes information for each provider in the LHJ, with overall total dollar amounts, the estimated split of state and federal assistance, and vaccine detail. In the next few weeks, we will mail reports to each provider enrolled in the State Childhood Vaccine Program. The reports will include the value of the vaccine they received by assistance type (federal/state). We will include the value of vaccines wasted, spoiled or expired by the clinic during the calendar year.
