

WIC FORMULAS AND FOODS PRESCRIPTION FORM

Infants (Birth to 1st birthday)

February 2012

Infant name _____

Infant date of birth _____

Caregiver name _____

Return pages 1 and 2 to the local WIC clinic or to the infant's caregiver.

1. Check a qualifying medical diagnosis

- Premature birth ≤ 37 weeks gestation
- Low birth weight ≤ 5 lbs 8 oz
- Failure to thrive
- Gastrointestinal disorders/malabsorption syndromes
- Immune system disorders
- Severe food allergies
- Metabolic disorders/inborn errors of metabolism
- Life-threatening medical condition that impairs the infant's nutritional status (Explain in Notes)
- Other medical diagnosis (Describe): _____

Notes: _____

Note: The qualifying medical diagnosis must correspond with the medical need of the prescribed WIC formula or WIC foods.

A symptom such as "colic", "constipation", "rash", "spitting up", "vomiting", or "fussiness" is not an acceptable medical diagnosis for WIC.

2. Prescribe formula and amount

Select one formula

- Good Start Gentle
- Similac NeoSure
- Similac Alimentum
- Enfamil EnfaCare
- Nutramigen

The following formulas are provided with no prescription: Similac Advance, Similac Sensitive – Fussiness & Gas, Similac – Spit-Up, Similac Soy.

Select the amount

- Allow up to the maximum amount of formula. WIC staff and caregiver will determine amount.

or

_____ Ounces per day not to exceed the maximum amount of formula allowed

Describe special feeding instructions:

3. Prescribe foods for infants 6 to 12 months of age

In addition to formula, baby cereal and baby food fruits and vegetables may be provided to infants 6 -12 months of age when prescribed. The infant will receive these foods unless the medical provider indicates otherwise.

When WIC foods are prescribed, infants 6-12 months of age will receive less formula. See table on page 2.

Check the foods the infant is not allowed.

- Baby cereal
- Baby food fruits and vegetables

Describe specific food or diet restrictions:

Infant Age	0-3 months	4-5 months	6-12 months	* 6-12 months when foods are contraindicated
Prescribed WIC Formula				
Powder (reconstituted)	Up to 870 fl. oz.	Up to 960 fl. oz.	Up to 696 fl. oz.	Up to 960 fl. oz.
Concentrate (reconstituted)	Up to 806 fl. oz.	Up to 884 fl. oz.	Up to 624 fl. oz.	Up to 884 fl. oz.
Ready-to-Feed	Up to 832 fl. oz.	Up to 896 fl. oz.	Up to 640 fl. oz.	Up to 896 fl. oz.
Prescribed WIC Foods				
Baby cereal	None	None	24 oz.	None Foods are contraindicated due to medical diagnosis.
Baby food fruits and vegetables	None	None	128 oz	None Foods are contraindicated due to medical diagnosis.

* This column shows the additional amount of formula when infants do not receive foods. **Exception:** Infants who are prescribed Good Start Gentle receive the formula amounts listed in the first "6-12 months" column whether or not they receive foods.

BABIES WERE BORN TO BE BREASTFED. WIC SUPPORTS BREASTFEEDING.

Instructions to complete the WIC Formulas and Foods Prescription Form for Infants

Use this form for infants from birth to their first birthday

Client information: Complete the top portion of the form with the infant name, infant date of birth, and caregiver name.

1. Check a qualifying medical diagnosis

This box must be completed in order to provide prescribed formula and foods. The qualifying medical diagnoses are specified by federal regulations. If **Other medical diagnosis** is marked, provide the medical diagnosis. The space under **Notes** is for any additional information that WIC staff should know related to the medical diagnosis.

2. Prescribed formula and amount

Check a box next to the formula prescribed.

WIC needs to know how much formula to provide the infant. Either check the **Allow up to the maximum amount of formula** if the maximum amount is needed or indicate the number of **Ounces per day** if the amount is less than what WIC allows. Refer to the table on page 2 of the form for the maximum amounts of powder, concentrate and ready-to-feed (RTF) formula allowed per month as defined by federal regulation.

The space under **Describe special feeding instructions** is for any feeding instructions, such as concentrating the formula from the usual 20 kcal per ounce, or specifying ounces per feeding.

3. Prescribe foods for infants 6 to 12 months of age

In the month the infant turns 6 months old, the infant may receive baby cereal and baby food fruits and vegetables.

When a check is marked in a box next to any food in the **Check the foods the infant is not allowed** table, WIC will not provide that food. If baby cereal and baby fruits and vegetables are not checked, the medical provider is prescribing all the foods in the standard food package. Refer to the attached chart for the maximum amounts of each food as defined by federal regulations. Note: WIC will not provide foods to infants younger than 6 months of age.

The space under **Describe special food or diet restrictions** is for any additional information that WIC staff should know regarding any restriction, such as instructing WIC staff to counsel the caregiver to select non-citrus fruits for an infant with citrus sensitivity/allergy.

Note: Infants 6 to 12 months of age who are prescribed NeoSure, Alimentum, EnfaCare LIPIL, or Nutramigen LIPIL may receive additional formula when WIC baby foods are not prescribed. This rule does not apply to infants who are prescribed Good Start Gentle. Infants prescribed Good Start Gentle do not receive additional formula whether or not they are prescribed baby foods. Refer to the table on page 2 of the form for the monthly maximum amounts of WIC formulas and foods.

4. Enter the number of months for this prescription

The prescription cannot exceed 12 months. A new form is required when: 1) the prescription for formula and foods expires; 2) the prescription for formula and foods changes, or 3) the infant turns one year of age.

Instructions to complete the WIC Formulas and Foods Prescription Form for Infants

5. Enter medical provider information

The name of the medical provider (licensed health care professional who can write medical prescriptions under state law), telephone, signature and date are required. A fax number and email address are optional but recommended. Questions should be directed to the infant's local WIC clinic or the Washington State WIC office at 1-800-841-1410.

WIC Staff - Complete this section: Local WIC clinic name, Phone # and Fax #

For WIC staff to complete.

Return completed form to the caregiver or to the infant's WIC clinic. The information on the completed form (pages 1 and 2) is confidential. Please assure confidentiality when mailing or faxing this form to the caregiver or to the infant's WIC clinic. Do not mail or fax this form to the Washington State WIC Office.
