

UNINSURED Vaccines For Children (VFC) Status Definition and FAQs

Revised 3/13/09

Uninsured status definition: A child who has no health insurance coverage.

Children who are uninsured are VFC eligible and are subject to VFC eligibility guidelines.

Uninsured status questions:

- Q.** What is the status of an unaccompanied minor who does not know their insurance status and they wish to keep the visit confidential?
- A.** Unaccompanied minors without insurance information are considered uninsured. Providers do not need to independently confirm the child's insurance coverage.
