- (2) To determine the appropriate fee for a noncommunity system, calculate the service equivalent to taking the average population served each day of operation and dividing by twenty-five for a transient noncommunity (TNC) system and two and one-half for nontransient noncommunity (NTNC) system. Use the number of service equivalents to find out what Group A size category to look under and submit the appropriate fee. (All noncommunity systems are Group A systems as described in WAC 246-290-020).
- (3) Additional review and approval fees may be assessed as follows:
- (a) The basic fee covers an evaluation, or the review of an initial submittal and one resubmittal if required. If additional resubmittals are required, an additional twenty-five-percent of the original fee will be assessed for each additional resubmittal. For water system plan and SMA plan preparation, the basic fee also covers a preplanning conference.
 - (b) Fees for department project approval based on local technical review will be determined on a case-by-case basis as outlined in the applicable memorandum of understanding between the department and the respective local agency;
 - (c) Fees may be assessed for services which the department determines are not described under subsection (1) of this section. If assessed, the fees will be calculated based on a rate of one hundred two dollars per hour.

Examples of these services include, but are not limited to:

- (i) Collection of water quality samples requested by purveyor;
- (ii) Review of alternate technologies requested by purveyor, manufacturer or authorized representative;

- (iii) Sanitary surveys, including the time spent as part of annual on-site inspections for systems under WAC 246-290-690(3) that is in addition to the time necessary to assess watershed control and disinfection treatment; or

- (d) Additional fees assessed by the department shall be billed to the purveyor using an itemized invoice.
- (4) If the Legislature revises the water system operating permit fee under RCW 70.119A.110 to incorporate into it one or more fees for service currently assessed separately under this section, and the purveyor has paid that consolidated fee, the department shall not assess or collect a separate fee under this section for any such service.
- (5) All fees required under this section except as noted in subsection (3) of this section, shall be submitted prior to the department's approval. Payment of fees shall be in the form of a check or money order made payable to: The Department of Health, P.O. Box 1099, Olympia, Washington 98507-1099. Payment of a fee shall not guarantee approval of the submitted document or evaluation request.
- (6) Purveyors unable to determine the appropriate fee payment to submit should contact the department.

- (3) For NTNC and TNC systems, owners shall pay the fee in Table 2 based on equivalent number of service connections. Population information used in calculating equivalent number of service connections shall come from the WFI. The department shall use the following formulas to determine equivalent number of service connections.
- (a) For NTNC populations, divide the average population served each day by two and one-half; and
 - (b) For TNC populations, which include recreational service connections, divide the average population service each day by twenty-five.
