Purpose

The purpose of this rulemaking is to incorporate statutory changes made in chapter 70.119 RCW, Chapter 221 Laws of 2009, strengthen the Department of Health's (department) authority to take enforcement actions for serious violations, and clarify the department's authority to certify backflow assembly testers and cross-connection control specialists. The department will also consider updating the rules to address operational issues and incorporate long-standing guidelines into the rules.

Recent Issues and Activities

Staff have finalized the draft rule text.

Next Steps

Staff are preparing the significant analysis and small business economic impact statement.
