Introduction

Washington struggles to maintain the number of health care providers needed to serve rural communities and underserved populations. This not only affects access to routine care, but it also impacts the health of many in our state. As a result, Congress and State Legislators created financial enhancements and other programs to increase access to care. A Health Professional Shortage Area and Medically Underserved Area or Population designation meets the initial eligibility requirements for several programs. Our office works with local partners and health jurisdictions to submit requests. We also offer education on shortage areas and other programs that increase access to care in underserved and rural areas.

Health Professional Shortage Areas

The shortage area requirements are quite complex. An area can have a county or partial-county designation. Qualifications are typically met if the population to provider ratio exceeds the required threshold and if care is not available or are beyond capacity in the surrounding areas. The rules clearly outline which data to use, how to draw boundaries and how to verify if nearby resources are beyond capacity. There are several designations and types of designations to consider in the application process.

Health Professional Shortage Areas are available for:

- Primary care;
- Primary dental care; or
- Mental health care (psychiatrists only).

There are five types of designations available:

- Geographic: the entire population in the designated area is identified as underserved and resources are considered over-utilized.
- Population: an underserved population identified within a specific area. Eligible populations include:
 - Low-income: there must be at least 30% of the population at or below 200% of the Federal Poverty Level.
 - Migrant farmworkers: migrant farmworkers and their non-farm working family members.
 - Native Americans: American Indians or Alaska natives that are not automatically designated.
 - Other populations that face access barriers due to language, cultural or disability barriers.
- Facility: a facility that is not in a designated area, but that serves residents located from a shortage area.
- Federally recognized tribes.
- Federal and state correctional facilities that are considered either a maximum or medium security facility.

Medically Underserved Area and Medically Underserved Population

An underserved area or population is only available for primary medical care. They currently do not expire. Qualifications are determined on an index value that includes the infant mortality rate, the poverty rate, the percentage of elderly and the primary care physician to population ratios.

Shortage Area and Underserved Area/Population Benefits

There are over 30 federal and state programs that use designations to establish initial eligibility. The following table summarizes requirements for some of the major programs used in our state. Each of the programs has additional requirements. Follow the links under the program title or review Appendix 1 at the end of this document to learn more.

Table 1: Programs that use Designations to Establish Eligibility

Program	Designation Type Required or Helpful	
	Professional Shortage Area	Underserved Area
New Federally Qualified Health Center	Any are helpful	Required
New Rural Health Clinic	Primary Care*	Any*
J-1 Visa Waiver Program	Primary Care**	Whole County
HPSA Medicare Bonus Payments	Geographic Primary or Mental Health Care***	N/A
National Health Service Corps	Provider specific**	
State Loan Repayment and Scholarship	Not Required	Not Required

* Designation is valid until December 31 of the third calendar year from date of federal approval

** There are some requirements to serve the designated population

*** Must be listed on the CMS HPSA/PSA website <http://www.cms.hhs.gov/hpsapsaphysicianbonuses/>

How do I get my Area Designated?

All designations are voluntary. We rely on local and state efforts to maintain the current system in our state. Our office coordinates the surveys to assess the eligibility of an area every 3 to 4 years. The survey completion process relies on local involvement in large urban counties. We coordinate with the local public health jurisdiction to:

- Administer the survey
- Bring those impacted to the table to provide education and direction on the appropriate strategy for the community

The Office of Community and Rural Health takes an active role to coordinate the process. We:

- Provide technical assistance and other tools to collect the data.
- Conduct assessments on what options are available.
- Work with communities to determine the best designation strategy.

- Prepare requests and updates for review.
- Follow up on the application submission.
- Notify those affected by any changes in the designation status
- Educate health care providers and the public on any changes in the federal rules or state programs and services to determine their impact on rural communities.

Please contact Laura Olexa at 360-236-2811 or email Laura.Olexa@doh.wa.gov for more information.

The Federal Designation Branch administers these programs. Their role includes:

- To set the rules and procedures.
- To review and approve all requests.
- To notify states of their final decisions.

They do not rule on whether or how a specific program uses the shortage area designation to establish eligibility. Eligibility requirements for federal programs are established by Congress and administered by federal agencies.

You can contact the Federal Designation Branch at:

Shortage Designation Branch, National Center for Health Workforce Analysis

How Long will it take to Complete?

The length of time it takes can vary. It can take anywhere from three months to 10 months to complete depending on the size of county and if it is either a new designation or a renewal. The speed of the process is impacted by local interest, provider participation and available staff resources within our office. The renewal process is started 8 to 12 months before it expires to ensure it is completed by the deadline. It generally takes our office 2 to 6 weeks after all of the data is received to complete the designation requests.

The federal review process is quite longer. This can take 3 to 5 months to complete. An approval letter is sent to our office once the designation is approved. All designations are also posted on their website, but there is a lag time between the letter and the posting online. We notify affected organizations of any changes in status as soon as the information becomes available. Please be sure to check eligibility requirements when applying for any programs. Some programs do require that the information be posted online.

When will my Facility be Eligible for the Benefits?

The Medicare Bonus Payment program requires that the designation be listed on the CMS HPSA/PSA website <http://www.cms.hhs.gov/hpsapsaphysicianbonuses/>. Payments are made automatically for whole county *Geographic* designations. Areas with partial-county designations may need to bill using the appropriate billing code.

Programs that are administered by the Bureau are effective from the date of the approval letter. They expire when a designation is officially withdrawn. Some of the programs include the National Health Service Corps, Rural Health Clinic certification and other health profession training grants. Designations are automatically withdrawn if an update is not submitted by October of the fourth year from the approval date. Areas will continue to be eligible for these programs while renewal requests are under federal review.

Is my Facility Located in a Designated Area?

Shortage area designations are listed in Tables 2 through 4 at the end of this document. Medically Underserved designations are in Table 5. We recommend you check the CMS HPSA/PSA website at <http://www.cms.hhs.gov/hpsapsaphysicianbonuses> or contact us if the approval date is within three years or if there is a notation in the column headed “Application to HRSA” to verify there is a current designation.

The designation tables include the Federal ID number and the score as well as the location information. The Federal ID number needs to be provided when grants or programs ask for a designation or an ID number. The National Health Service Corp uses the score to prioritize areas with the highest unmet need.

Partial-county designations are defined using 2004 census tract boundaries. Designated census tracts are listed in the table column titled “Geographic Units”. We suggest using either the federal geocoding system <http://www.ffiec.gov/geocode/default.htm> or the Department of Health’s geocoding website <http://ww4.doh.wa.gov/gis/mapping.htm> to determine if a facility is located in a designated area. Washington State shortage area and underserved area maps are available for review on the [Health Care Infrastructure Mapping Website](#). The maps are only updated on a yearly basis and may not reflect the most recent status of an area.

Is the Data an Accurate Measure of Access to Health Care?

No. Our office does not recommend the use of this data as the sole source of information to complete assessments on access to care in the community. The data provides limited scope and is not an adequate picture of the current system. Please see the [Health Care Access Research Website](#) for information on access to care.

Activity Digest

A list of counties receiving HPSA designations from January 1, 2009 to September 30, 2009. The HPSA Activity Digest is available at <http://www.doh.wa.gov/hsqa/ocrh>

Appendix 1

PROGRAMS USING FEDERAL HEALTH PROFESSIONAL SHORTAGE AREA (HPSA) DESIGNATIONS TO QUALIFY

Over 30 federal programs consider federal shortage designations in qualifying criteria. This appendix lists key programs.

National Health Service Corps (NHSC): provides for assignments of federally employed and/or service-obligated physicians, dentists, and other health professionals. The program also provides scholarship and loan repayments to health professionals who agree to serve in the NHSC in HPSA's Practice sites for NHSC must meet other conditions including offering a sliding-fee-scale. For more information on site requirements contact the Office of Community and Rural Health, (360) 236-2814. For general information, call National Health Service Corps hotline (1-800-221-9393) or check their website at <http://nhsc.hrsa.gov>.

Area Health Education Center Program: gives special consideration to centers that would serve HPSA's with higher percentages of underserved minorities; gives funding priority to centers providing substantial training experience in HPSA's. For further information, call (206) 441-7137 for western Washington and (509) 358-7640 for eastern Washington.

Rural Health Clinics Program: provides enhanced Medicare and Medicaid reimbursement for services provided by physician assistants and nurse practitioners in clinics in rural HPSA's, MUAs. For information on applying for Rural Health Clinic status contact the Office of Community and Rural Health, (360) 236-2811 or visit the [Washington State Rural Health Clinic website](#).

Medicare Incentive Payment For Physician's Services Furnished In HPSA's: (Public Law 100-203, Section 4043, as amended): Centers for Medicare & Medicaid Services (CMS) gives a 10% bonus payment to physicians providing Medicare-reimbursable services within geographic HPSA's. This payment does not apply to population group HPSA's. For more information, call Medicare Provider Enrollment at (515) 974-3690 or the Noridian HPSA Bonus Payment Website. <https://www.noridianmedicare.com/p-med/b/>

Medicare Reimbursement for Teleconsultations: Teleconsultations originating in non-metropolitan counties or in primary care geographic HPSA's in a metropolitan county. To learn how to participate, call the Medicare Provider Call Center at (701) 277-6782 and choose Option 2.

Public Health Service Grant Programs: HRSA's Bureau of Health Professions offers several programs designed to encourage health professional training. Funding preference is given to efforts in HPSA's and MUA/MUPs. For more information check out their website at <http://www.hrsa.gov/> or call the HRSA Seattle Field Office at (206) 615-2490.

Federally Qualified Health Centers (FQHC) grant funds are legislatively required to serve areas or populations designated by the Secretary of Health and Human Services as medically underserved. Grants for the planning, development, or operation of community health centers under section 330 of the Public Health Service Act are available only to centers that serve designated MUAs or MUPs. For more information contact the Primary Care Office at (360) 236-4546 or visit their website at <http://www.doh.wa.gov/hsqa/ocrh/primary.htm>

Federally Qualified Health Centers Look-Alikes: Systems of care which meet the definition of a Federally Qualified Health Center contained in Section 330 of the Public Health Service Act, but are not funded under that section, and are serving a designated MUA or MUP, are eligible for certification as a Federally Qualified Health Center (FQHC). This allows for cost based reimbursement of services to Medicaid eligible. For more information contact the Primary Care Office at (360) 236-4546 or visit their website at <http://www.doh.wa.gov/hsqa/ocrh/primary.htm>

State Programs Using Federal Designations

J-1 Visa Waiver Program: The State of Washington can request that Visa requirements be waived for up to 20 International Medical Graduates willing to serve in a HPSA or whole county MUA, or MUP. For more information contact the Office of Community and Rural Health J-1 Visa Waiver information number at (360) 236-2814 or Visit our website at <http://www.doh.wa.gov/hsqa/ocrh/R&R/j1.htm>
