

## 5930 Work Plan Template Consolidated Contract Deliverable

LHJ Name: Lewis County Health Department  
 Date: 3/14/2008  
 LHJ Work Plan Contact: Doug Wangen (360) 740-2745

Due: April 15, 2008  
 Send to: [simana.dimitrova@doh.wa.gov](mailto:simana.dimitrova@doh.wa.gov)  
 FAX (360) 586-7424

**Performance Measure #1** – Increase the uptake of new and under-used child and adolescent vaccines; specifically focusing improvement efforts and reporting on Varicella, Rota Virus, HPV and Pediatric Influenza.

**Reporting Measure**

**A:** Number of doses of vaccine ordered by each LHJ

**B:** Number of doses administered as recorded in CHILD Profile

PM#	Objectives / Strategies	Action	Status As of Dec. 31, 2009
1	Visit every provider in the county that uses state supplied vaccine at least 1x this calendar year to provide education and training on CHILD Profile and recruit / improve their participation.	Hire 1 new RN (0.6FTE)	<p>RN not hired for 5930 project due to hiring freeze in 2008.</p> <p>All Providers visited in 2008 either through group meetings or at clinics individually in 2009 for VFC status screening and 5930 activities.</p> <p>Initially 19 out of 23 State vaccine providers were signed up for Child Profile only 9 were regularly inputting data successfully. 2 Providers were actually added in 2008 bringing the total to 21 and 4 clinics were joint visited with Child Profile staff. Providence Hospital directly downloads through birth records and Planned Parenthood as an entity refused to sign up due to confidentiality issues. The Health Department was inputting data for 6 clinics originally. Currently out of 21 Providers 15 are regularly inputting independently directly or through data transfers as of the end of</p>

			2009. Health Department completing input for 3 clinics. Continued to work directly with Pediatric office whose electronic medical records are not compatible with data transfer to CP.
1	Work with providers to incorporate the use of the reminder / recall portion of CHILD Profile to increase child vaccine timeliness and administration	Contact providers and help them implement reminder/recall activities.	Mandatory breakfast meeting for all Providers held August 2008 for Performance Measures and educational updates. Promoting use of Child Profile, Varicella documentation of disease in CP and Reminder Recall activities. Visited all clinics individually in 2009 recommending use of CP reminder/ recall module . Some clinics implemented paper recall letters or phone calls or have their own recall system in place. Responses very variable but not many use CP reminder program as it is not easy to use.
1	Increase provider knowledge of immunization guidelines for use of state supplied vaccine	Educate providers about vaccine usage	Listserve created for State Vaccine Providers in 2009. Updates sent out by the Immunization Program by e-mail and fax regularly in Lewis County reminding Vaccine providers to encourage uptake of all vaccines especially Varicella HPV, Rotavirus and Influenza.
1	Increase parents' knowledge about recommendations and requirements for vaccination	Educate parents through outreach including health fairs, parent meeting and mass media.	Partnered with Clinics and school nurses in Lewis County. At sports physical clinics held in Lewis County fliers for "Which Immunizations do teens need" were handed out to teens to read or take home to parents. Listserve developed for school nurses for information sharing and easy contact used successfully for

			performance measures #1 and #2. Media articles used for increasing uptake of HPV and influenza vaccination in children and adults in 2008 and 2009.
--	--	--	---

**Performance Measure #2** – Improve the timely, complete identification and standard, effective investigation of notifiable conditions per WAC 246-101.

**Reporting Measure**

**A:** Percent of notifiable condition cases reported to the LHJ within the required timeframe (per WAC)

**B:** Percent of notifiable condition cases reported to the LHJ where investigation was initiated within the timeframe specified in the Guidelines

**C:** Percent of notifiable condition cases reported to the LHJ with a completed investigation as indicated by completion of “essential fields”

PM#	Objectives / Strategies	Action	Status As of Dec. 31, 2009
2	Increase disease investigators' access to consulting health officer	Increase health officer time by 6 hours per week	Implemented on January 1, 2008 to increase access to HO.
2	Increase timeliness and completeness of provider reporting	Contact providers and educate regarding notifiable conditions and reporting requirements	. Visited each provider/clinic /vet in Lewis County, also all Hospital Infection Control Specialists. Provided each with laminated Notifiable Conditions list with instructions re: reporting . 24 hour reporting line instructions were given to providers and staff. Created on-line reporting forms, educated providers re: on-line forms. Created quick, easy to use reporting form that can be faxed quickly from providers to LHJ, Supplied providers with quick to use reporting tool and informed and instructed.
2	Increase laboratory reporting of notifiable conditions	Contact lab personnel and educate regarding notifiable conditions and reporting requirements	Visited Lewis County Laboratories. Provided staff with laminated Notifiable Conditions List and instructions re: reporting. 24 hour reporting line instructions and on-line reporting forms were made available to lab staff with

			instructions.
2	Increase provider utilization of new STD case report forms	Distribute new forms to providers and educate on their use	Visited providers in Lewis County. Distributed new STD case report forms and return envelopes. Educated staff in use. Made new forms available on-line for them to print out and fax/send to LHJ.

**Performance Measure #3** – Develop and implement effective community and health care system interventions to address obesity and its consequent burden of chronic disease. Interventions may target worksites, schools, communities, or primary medical care.

**Reporting Measure**

**A:** Number and description of LHJ activities and interventions to address obesity or chronic disease and association risk factors in the community.

<b>PM#</b>	<b>Activity</b>	<b>Resources</b>	<b>Status As of Dec. 31, 2009</b>
3	Conduct assessment of obesity and its effects within our county	Staff time to conduct assessment; community meetings held to discuss assessment process and results	Assessment began in June 2009 – via written surveys and focus group gatherings with parents, teens, teachers, and health professionals in the area. Community meetings are held every month to review and discuss progress. A separate steering committee has also been developed due to the receipt of some additional assessment funding from the AAP through a CATCH grant.
3	Enhance partnership with KCED (Spanish language radio station at Centralia College) via formal contract, also to include working with ESL classes to provide health information as part of program	PSAs and other health messages developed; translator;	A formal contract was in place for 2008. Since 2009, KCED has continued to provide health messages and news received from our LHJ.

3	Improve (county) employee wellness program	Wellness program; staff time to provide educational sessions for employees; local gyms and their staff, i.e. trainers and nutritionists; health insurance programs	Health educator works with Wellness Coordinator to offer quarterly lunchtime educational sessions and collaborate on other employee wellness programs.
3	Enhance relationship with Northwest Pediatrics (and other medical providers) and Thorbecke's (local health club) via Healthy Beginnings class (targeting pediatric populations with BMI indicating obesity and their family members).	Relationships with local medical providers; research regarding family oriented classes;	Our LHJ has a strong relationship with Northwest Pediatrics, other medical providers in the community, Thorbecke's, and numerous other community partners due to the local coalition that was formed in response to obesity. The coalition, with a membership base of >50, meets monthly to discuss current trends and plan for interventions and community activities. Various partners also collaborate routinely (outside the monthly meetings) for various community projects.
