**Notes:**

- 1 Adverse Events notifications prior to June 2006 are not available and are not included in this report.
- 2 The Department of Health implements data quality checks which may result in updated counts.

† Event type 22 (Fall) was revised in July 2009 to include disability.  
 ( - ) No data for this event was gathered during this time

**Revisions starting in October 2012 (Q4):**

Event numbers were renamed and reordered

For all the events where the phrase "patient death or serious disability" occurred, the phrase "patient death or serious injury" replaces it, intentionally broadening the event type

The three events Hypoglycemia, Hyperbilirubinemia, and Spinal manipulative therapy under Care Management were retired

The three events: Neonate death or serious injury, Irretrievable loss of an irreplaceable biological specimen, and Failure to follow up or communicate test results under Care Management were added

† Procedure Events includes surgical or invasive procedures

† Infant was broadened to include a patient/ resident of any age

† Patient suicide, attempted suicide was broadened to include self-harm

† Pressure ulcers were broadened to include unstageable pressure ulcers

† Sexual assault was broadened to include sexual abuse/ assault on a patient or staff member

† The category Radiologic Events was created
