**Subject:** Human Health PAWG - thank you!

On behalf of Governor Gregoire, Jay Manning, Juli Wilkerson and the entire Climate Advisory Team, we want to express our sincerest gratitude and appreciation for your hard work on the Human Health Preparation and Adaptation Working Group. You may not have realized the full extent of the task you so willingly signed up to take on, but you completed your task with great skill and lots of hard work.

Your recommendations are an excellent first step in understanding what the state needs to do to prepare for and adapt to climate change impacts in Washington. As the process moves forward, your work will be instrumental in shaping our choices in our continuing efforts to tackle climate change.

Again, thanks for a tough job very well done.

Janice Adair, Department of Ecology

Tony Usibelli, Community, Trade & Economic Development
