Family Support Programs Mission Statement

The mission of the Family Support Program is to offer health education and support to all Jefferson County pregnant women and families with young children as they build a secure foundation for a lifetime of health, learning, and community contribution.

The Family Support Team consists of public health nurses, registered dietician, social worker, and support staff.

Our goals are:

- To honor the diversity of all Jefferson County families with young children.
- To support and guide families by building on their strengths in order to create a safe, healthy, and hopeful future for their children.
- To collaborate with community partners in our shared goal of improving health, preventing adverse childhood experiences, and creating a seamless continuum of services.
- To provide high quality services through community assessment, commitment to best practices, professional continuing education, and program evaluation.
