## Make the Move

from COVID Program to Childhood Vaccine Program to get ALL childhood vaccines –  
**at no cost to providers or patients.**

Join the 1,000 other Washington CVP providers creating healthy communities.

**Current State:** The US Government provides the COVID-19 vaccines for free.

**Future Options:** Commercialization will allow providers to either

1. Privately purchase vaccines for your patients.

**OR**

2. Enroll in the DOH [Childhood Vaccine Program](#).

- Vaccines are supplied at no cost to providers or patients.
- Remove cost barriers for your patients and community.
- Providers can charge a vaccine administration and/or office visit fee.
- All vaccines recommended by the Advisory Committee on Immunization Practices (ACIP) are provided for those under age 19.
- Eliminate the need for providers to keep separate stock of vaccines for privately insured patients.
