

WAC 246-827-0010 Definitions. The following definitions apply throughout this chapter unless the context clearly indicates otherwise:

(1) "Controlled substance" means a drug, substance, or immediate precursor included in Schedules I through V as set forth in federal or state laws, or federal or commission rules, but does not include hemp or industrial hemp as defined in RCW 15.140.020.

(2) "Direct visual supervision" means the supervising health care practitioner is physically present and within visual range of the medical assistant.

~~((2))~~ (3) "Forensic blood draw" means a blood sample drawn at the direction of a law enforcement officer for the purpose of determining its alcoholic or drug content by a person holding one of the credentials listed in RCW 46.61.506, including a medical assistant-certified, medical assistant-phlebotomist, or forensic phlebotomist.

~~((3))~~ (4) "Health care practitioner" means a physician licensed under chapter 18.71 RCW; an osteopathic physician and surgeon licensed under chapter 18.57 RCW; or acting within the scope of their respective licensure, a podiatric physician and surgeon licensed under chapter 18.22 RCW, a registered nurse or advanced registered nurse practitioner licensed under chapter 18.79 RCW, a naturopath licensed under chapter 18.36A RCW, a physician assistant licensed under chapter 18.71A RCW, or an optometrist licensed under chapter 18.53 RCW.

~~((4))~~ (5) "Hemodialysis" is a procedure for removing metabolic waste products or toxic substances from the human body by dialysis.

~~((5))~~ (6) "Immediate supervision" means the supervising health care practitioner is on the premises and available for immediate response as needed.

~~((6))~~ (7) "Immediately available" means the supervising health care practitioner is available to arrive on the premises in a reasonable amount of time or for an immediate telephone consultation.

(8) "Legend drug" means any drug which is required by any applicable federal or state law or regulation to be dispensed on prescription only or is restricted to use by practitioners only.

~~((7))~~ (9) "Medical assistant" without further qualification means a person credentialed under chapter 18.360 RCW as a:

- (a) Medical assistant-certified;
- (b) Medical assistant-registered;
- (c) Medical assistant-hemodialysis technician; and
- (d) Medical assistant-phlebotomist.

~~((8))~~ (10) "Medical assistant-hemodialysis technician" means a patient care dialysis technician trained in compliance with federal requirements for end stage renal dialysis facilities.

~~((9))~~ (11) "Medication" means a legend drug, over-the-counter drug, or Schedule III through V controlled substance.

(12) "Secretary" means the secretary of the department of health or the secretary's designee.

~~((10))~~ (13) "Telemedicine supervision" means the delivery of direct patient care under supervision by a health care practitioner provided through the use of interactive audio and video technology, permitting real-time communication between a medical assistant at the originating site and a health care practitioner off premises. "Teleme-

dicine" does not include the use of audio-only telephone, facsimile, or electronic mail.

AMENDATORY SECTION (Amending WSR 23-16-004, filed 7/19/23, effective 8/19/23)

WAC 246-827-0200 Medical assistant-certified—Training and examination. An applicant for a medical assistant-certified credential must meet the following requirements:

(1) Successful completion of one of the following medical assistant training programs:

(a) Postsecondary school or college program accredited by the Accrediting Bureau of Health Education Schools (ABHES) or the Commission of Accreditation of Allied Health Education Programs (CAAHEP);

(b) Postsecondary school or college accredited by a regional or national accrediting organization recognized by the U.S. Department of Education, which includes a minimum of 720 clock hours of training in medical assisting skills, including a clinical externship of no less than 160 hours;

(c) A registered apprenticeship program (~~administered by a department of the state of Washington~~) approved by the Washington state apprenticeship and training council unless the secretary determines that the apprenticeship program training or experience is not substantially equivalent to the standards of this state. The apprenticeship program shall ensure a participant who successfully completes the program is eligible to take one or more examinations identified in subsection (2) of this section;

(d) The secretary may approve an applicant who submits documentation that they completed postsecondary education with a minimum of 720 clock hours of training in medical assisting skills. The documentation must include proof of training in all of the duties identified in RCW 18.360.050(1) and a clinical externship of no less than 160 hours; or

(e) The secretary may approve an applicant who submits documentation that they completed a career and technical education program approved by the office of the superintendent of public instruction with a minimum of 720 clock hours of training in medical assisting skills. The documentation must include proof of training in all of the duties identified in RCW 18.360.050(1) and a clinical externship of no less than 160 hours.

(2) Pass a medical assistant certification examination, approved by the secretary, within the preceding five years of submitting an initial application or currently hold a national medical assistant certification with a national examining organization approved by the secretary. A medical assistant certification examination approved by the secretary means an examination that:

(a) Is offered by a medical assistant program that is accredited by the National Commission for Certifying Agencies (NCCA); and

(b) Covers the clinical and administrative duties under RCW 18.360.050(1).

WAC 246-827-0240 Medical assistant-certified—Administering medications, vaccines and injections. A medical assistant-certified shall be deemed competent by the delegating health care practitioner prior to administering any ~~((drug))~~ medication or vaccine authorized in this section. ~~((Drugs))~~ Medications must be administered under a valid order from the delegating health care practitioner and shall be within the delegating health care practitioner's scope of practice. The order must be in written form or contained in the patient's electronic health care record.

(1) ~~((Drug))~~ Medication or vaccine administration shall not be delegated when:

(a) The ~~((drug))~~ medication or vaccine may cause life-threatening consequences or the danger of immediate and serious harm to the patient;

(b) Complex observations or critical decisions are required;

(c) A patient is unable to physically ingest or safely apply a medication independently or with assistance; or

(d) A patient is unable to indicate awareness that he or she is taking a medication or vaccine.

(2) To administer medications or vaccines, the delegator shall ensure a medical assistant-certified receives training concerning: Dosage, technique, acceptable route(s) of administration, appropriate anatomic sites, expected reactions, possible adverse reactions, appropriate intervention for adverse reaction, and risk to the patient. The delegator must ensure a medical assistant-certified is competent to administer the medication or vaccine.

(3) A medical assistant-certified is prohibited from administering:

(a) Schedule II controlled substances or chemicals, chemotherapy agents, or experimental drugs; or

(b) Medications through a central intravenous line.

(4) Except as provided in subsection (1) of this section, a medical assistant-certified may administer controlled substances in schedules III, IV, and V or other ~~((legend drugs))~~ medications when authorized by the delegating health care practitioner. ~~((Drugs))~~ Medications shall be administered only by unit or single dosage or by a dosage calculated and verified by a health care practitioner. A medical assistant-certified shall only administer ~~((drugs by))~~ medications under the level of supervision based on the route as described in subsection (5) of this section.

(5) A medical assistant-certified may only administer medications by the following ~~((drug))~~ medication category, route and level of supervision:

((Drug)) <u>Medication Category</u>	Routes Permitted (([±]))	Level of Supervision Required
Controlled substances, schedule III, IV, and V	Oral, topical, rectal, otic, ophthalmic, or inhaled routes	Immediate supervision
	Subcutaneous, intradermal, intramuscular, or peripheral intravenous injections	Direct visual supervision
((Other)) <u>Legend drugs</u>	((All other routes)) <u>Peripheral intravenous injections</u>	((Immediate)) <u>Direct visual supervision</u>

((Drug)) Medication Category	Routes Permitted((*)	Level of Supervision Required
	<u>All other routes</u>	<u>Immediate supervision</u>
<u>Over-the-counter medications</u>	<u>All routes per manufacturer's instructions</u>	<u>Immediate supervision</u>
	<u>((Peripheral intravenous injections</u>	<u>Direct visual supervision))</u>
<u>Vaccines</u>	<u>Subcutaneous, intradermal, intramuscular, or peripheral intravenous injections</u>	<u>Immediately available or telemedicine supervision</u>

((* A medical assistant-certified is prohibited from administering medications through a central intravenous line.

~~(6) A medical assistant-certified may not start an intravenous line. A medical assistant-certified may interrupt an intravenous line, administer an injection, and restart at the same rate.))~~

(6) A medical assistant-certified may:

(a) Start an intravenous line for diagnostic or therapeutic purposes under the immediate supervision of a health care practitioner.

(b) Interrupt an intravenous line and restart at the same rate under the immediate supervision of a health care practitioner.

(c) Administer intravenous injections for diagnostic or therapeutic agents under the direct visual supervision of a health care practitioner.

(7) A medical assistant-certified is prohibited from administering medications through a central intravenous line.

(8) A medical assistant-certified may administer a vaccine during a telemedicine visit, if supervision over the medical assistant-certified is provided through interactive audio and video telemedicine technology through which the supervising health care practitioner is immediately available for consultation as needed.

NEW SECTION

WAC 246-827-0340 Medical assistant-registered—Administering medications, vaccines, and injections. A medical assistant-registered shall be deemed competent by the delegating health care practitioner prior to administering any medication or vaccine authorized in this section. Medications must be administered under a valid order from the delegating health care practitioner and shall be within the delegating health care practitioner's scope of practice. The order must be in written form or contained in the patient's electronic health care record.

(1) Medication or vaccine administration shall not be delegated when:

(a) The medication or vaccine may cause life-threatening consequences or the danger of immediate and serious harm to the patient;

(b) Complex observations or critical decisions are required;

(c) A patient is unable to physically ingest or safely apply a medication independently or with assistance; or

(d) A patient is unable to indicate awareness that he or she is taking a medication or vaccine.

(2) To administer medications or vaccines, the delegator shall ensure a medical assistant-registered receives training concerning: Dosage, technique, acceptable route(s) of administration, appropriate

anatomic sites, expected reactions, possible adverse reactions, appropriate intervention for adverse reaction, and risk to the patient. The delegator must ensure a medical assistant-registered is competent to administer the medication or vaccine.

(3) A medical assistant-registered is prohibited from administering:

(a) Schedule II controlled substances or chemicals, chemotherapy agents, or experimental drugs; or

(b) Medications through a central intravenous line.

(c) Medications through an intravenous line.

(d) Medications through intravenous injection.

(4) Except as provided in subsection (1) of this section, a medical assistant-registered may administer controlled substances in schedules III, IV, and V or other medications when authorized by the delegating health care practitioner. Medications shall be administered only by unit or single dosage or by a dosage calculated and verified by a health care practitioner. A medical assistant-registered shall only administer medications under the level of supervision based on the route as described in subsection (5) of this section.

(5) A medical assistant-registered may only administer medications by the following medications category, route, and level of supervision:

Medication Category	Routes Permitted	Level of Supervision Required
Controlled substances, schedule III, IV, and V	Intramuscular injections	Immediate supervision
Legend drugs	All other routes	Immediate supervision
Over-the-counter medications	All other routes per manufacturer's instructions	Immediate supervision
Vaccines	Oral, inhaled, subcutaneous, or intramuscular routes	Immediately available or telemedicine supervision

(6) A medical assistant-registered is prohibited from starting an intravenous line. A medical assistant-registered may interrupt an intravenous line.

(7) A medical assistant-registered is prohibited from administering medications through intravenous injection or a central intravenous line.

(8) A medical assistant-registered may administer a vaccine during a telemedicine visit, if supervision over the medical assistant-registered is provided through interactive audio and video telemedicine technology through which the supervising health care practitioner is immediately available for consultation as needed.
