- On July 1, 2014, Proliance Surgeons, Inc., PS purchased the practice known as Plastic and Reconstructive Surgeons, Inc. PS located in Renton.
- The change of ownership for Plastic and Reconstructive Surgeons, Inc. PS requires a new exemption for the ASC under the new ownership.

- No management agreement is proposed.

CONCLUSION

Based on the totality of information considered, the department concludes the proposed ASC would be exempt from Certificate of Need review. This exemption is not transferable and the conclusions reached concerning this proposed ASC are based on the facts about this facility and it should not be assumed the department would reach the same conclusion in future exemption requests for other future ASCs.

If changes are made in the operation or ownership of this proposed ASC, the ASC may no longer be eligible for this exemption. In that case, prior Certificate of Need review and approval or new exemption would be required. Examples of such changes include the following. This list is not intended to be all inclusive.

- The scope of services is expanded to include services subject to Certificate of Need review under the provisions of WAC 246-310-020.
- The provision of any procedure as identified under WAC 246-310-705(4).
- The ASC is operated under a management agreement.
- The ASC is organized as a separate legal entity from the practice.
- The ASC is moved to a different site than identified in the exemption application.
- Use of the ASC is extended to any physician who is not a member/owner or employed by Proliance Surgeons, Inc., PS.
- The ASC ceases operations or relinquishes its Medicare certification and then chooses to resume services as an ASC.
- The ASC or the practice is purchased or leased.
- ASC patients are routinely transferred from the ASC for observation care at one of the area's hospitals.
