- 24-hour ER
- Physical Therapy
- Occupational Therapy
- Speech Therapy, upon request
- Nutritional Therapy with Registered Dietitian
- Social Services
- Acute Care
- Certified Swing Bed Services
- Long-term Swing Bed Services

Outpatient Services

Once orders are received (brought in or faxed by a provider) you will be registered. Patient rights/responsibilities and privacy rights are offered and consent to treat/agreement to pay form is signed.

Acute Care

Upon admission to acute care, you will be assigned a room and the admitting process will begin. Federal regulations require hospital personnel to inquire as to the presence of an Advanced Directive. This includes a Living Will or Durable Power of Attorney, with a health clause. Information on Advanced Directives is provided to every patient upon admission. You will be offered the patient rights and privacy rights brochures, non-disclosure policy and Medicare patients will receive: Important Message from Medicare.

The following forms will need to be signed:

- Consent to treat/agreement to pay
- HIPPA Notice of Privacy Practices
- Patient Rights & Responsibility Notice (as appropriate)
- HIPPA authorization to release health information to family and friends (as appropriate)
- Immunization/vaccination forms

Nurses and/or technicians will interview you by asking questions about our health including identifying home medications. It is important that you bring a medications list with you. Sometimes questions are asked more than one time, to ensure accurate information. These questions may concern your diet, allergies, personal habits, and other factors, which will apply specifically to the care you receive. This information is extremely important and will be kept in strict confidence. We appreciate your cooperation in providing detailed answers to these questions.

Please feel free to ask our staff any questions that you may have about our hospital, the care you receive, or any procedures. We will try to provide you with room accommodations of your choice; however, accommodations you prefer might not be immediately available due to physician requests, special treatment procedures, or the medical needs of other patients.

Upon discharge, the physician will provide discharge orders, which the nurse will then explain to the patient. Follow-up appointments, especially at Columbia Basin Family Medicine can be made prior to the patient leaving. A dictated discharge summary should be done as timely as possible.

Certified Swing Bed Services:

Following a recent (within 30 days) hospital stay of 3 nights or more for surgical condition or extended illness you may be admitted for rehabilitation services. Your doctor will recommend extended stay for you to gain your strength before returning home. Skilled nursing, physical therapy, occupational therapy, speech therapy may be necessary to help you with your goal of returning to your prior ability.

Long-term Swing Bed Services:

You may have a loved one who is no longer able to care for themselves in their home. We offer long-term swing beds as a safe, clean, caring environment where we meet the needs of our aging community members. Our Social Services Department will assist you with information regarding this service.

Garden Oasis Assisted Living:

We also offer an Assisted Living Facility option for patients who are able to live with semi-independence. This too is a clean, caring environment that is an option for you or your loved ones.

Nursing Home:

We also offer a Nursing Home Facility option for patients who require total care. Again, this is a clean, caring environment that is an option for you or your loved ones.
