**Title of rule and other identifying information:** (describe subject) WAC 246-817-550 Acts that may be performed by licensed dental hygienists under general supervision. Supplemental notice to WSR 19-03-072. The Dental Quality Assurance Commission (commission) is proposing rule amendments add identified tasks from WAC 246-817-520 acts that may be performed by dental assistants under close supervision to the list of allowable tasks that a dentist can delegate to dental hygienists under general supervision. This supplemental proposal removes orthodontic tasks.

**Purpose of the proposal and its anticipated effects, including any changes in existing rules:** The proposed rule amendments updates the listing of allowable duties a dentist may delegate to a licensed dental hygienist under general supervision with the exception of orthodontic tasks that were previously proposed. A licensed dental hygienist has appropriate education and training to competently perform the tasks in the proposed rule amendments after a dentist has examined and diagnosed the patient and provided subsequent instructions to be performed without the dentist physically present in the office. Additionally, several tasks in the proposed rule amendments may provide more opportunities for teledentistry when a dentist is not required to be on site. This would allow a dentist and dental hygienist to provide dental care to patients unable to be physically in the dental office.

**Reasons supporting proposal:** The commission considered a rule request in July 2017 to allow dental hygienists to perform certain tasks under general supervision that are typically completed by dental assistants under close supervision. Close supervision requires the dentist to be physically present in the treatment facility during the performance of a delegated task while general supervision does not. Identifying a list of acceptable tasks that may be delegated by a licensed dentist to a licensed dental hygienist in rule establishes enforceable practice standards while ensuring patient safety. Because a general supervision list of tasks already exists in current rule, rulemaking is necessary to amend the rule to include proposed tasks which are currently allowed under close supervision. Stakeholder comments received during the March 1, 2019 hearing expressed concerns that several of the orthodontic tasks were inappropriate to delegate under general supervision. The commission determined four of the six orthodontic tasks require examination, diagnosis, and treatment planning each time the task was performed.

The commission changed the original proposal to delete the following:  
 Prepare teeth for the bonding of orthodontic appliances.  
 Bond attachments for clear removable orthodontic aligners.  
 Remove and replace archwires and orthodontic wires.  
 Remove fixed orthodontic appliances, orthodontic cement, and orthodontic bonded resin material.

**COMPLETE THIS SECTION ONLY IF NO EXEMPTION APPLIES**

If the proposed rule is **not exempt**, does it impose more-than-minor costs (as defined by RCW 19.85.020(2)) on businesses?

No Briefly summarize the agency's analysis showing how costs were calculated. The proposed rule does not impose costs on businesses.

Yes Calculations show the rule proposal likely imposes more-than-minor cost to businesses, and a small business economic impact statement is required. Insert statement here:
