COVID-19 (Coronavirus Disease 2019) is an infection caused by a new virus known as SARS-CoV-2. The symptoms of COVID-19 can range from mild to severe and include:
- Fever
- Cough
- Difficulty breathing
- Fatigue
- Muscle or body aches
- Loss of taste or smell
- Chills
- New onset of confusion
- New onset of severe headache
- New loss of speech or weakness in face, arm, or leg
- New weakness or pain
- New rash
- New digestive symptoms

If you have symptoms of COVID-19, please call your healthcare provider or local health department for guidance on how to proceed. If you do not have access to a healthcare provider, you can contact 2-1127 for guidance.

For more information, please visit:
- Washington State Department of Health: https://www.doh.wa.gov
- Washington Relay: 1-800-525-0127

COVID-19 is a global issue, and we all have a role to play in slowing the spread of this virus. Please follow the guidance of your local health department to protect yourself and your community.

What you need to know about COVID-19 in a few key paragraphs.

The State of Washington is taking action to help protect our residents and keep our communities safe. This includes:

- Quarantining people who may have been exposed to the virus.
- Isolating people who are sick with COVID-19.
- Implementing social distancing measures.
- Providing guidance for businesses and schools.

Washington Relay can be reached at 711 Washington Relay or civil.rights@doh.wa.gov.
