Purpose of the proposal and its anticipated effects, including any changes in existing rules:

After the public hearing on March 7, 2016 the board decided to revise the proposal to limit CAVM CE to 20 hours and require a minimum of 10 hours in conventional veterinary medicine for every three year CE reporting period. The board's current rules related to continuing education do not address criteria for the approval of CAVM courses. Revising rules will provide clarity to licensees and continuing education providers regarding how many hours of CAVM continuing education are allowed. The rule does not change the total number of CE hours required.

Reasons supporting proposal:
The board originally proposed a ten hour limit on the number of veterinary CAVM CE hours that can be earned in any three year reporting period. After stakeholder feedback from multiple veterinary practitioners who practice solely in CAVM, the board decided to revisit the proposal. The board now proposes to establish a twenty hour limit on CAVM continuing education and add a ten hour minimum requirement for conventional medicine. The board finds that doing so would not result in a reduction in the quality of care provided and supports the consumer’s choices about what kind of care they seek.
