### Eligibility requirements (or non-eligibility criteria)
- Must need inpatient level of service:
  - E&T (danger to themselves or others)
  - Triage
  - Crisis stabilization
- May not accept patients for which they are not appropriately staffed or certified to provide the level of service needed
- Have signs or symptoms of mental illness requiring a continuous 24 hours or more of monitoring, observation, or care
- Admit only patients for whom the hospital is qualified by staff, services, and equipment to give adequate care.
- Transfer patients with physical health needs the hospital cannot care for.
- Have a psychiatric diagnosis and require a continuous 24 hours or more of care for the diagnosis
- The general requirements to be eligible for an ESF include individuals who are at least 18 years old and require daily care by, or under the supervision of, a mental health professional, chemical dependency professional, or nurse; or assistance with three or more activities of daily living.
- Transfer patients with physical health needs the hospital cannot care for.
- Adults who meet certain medical criteria, typically with chronic care needs or disabilities that require 24-hour nursing care.
- Individuals as characterized in WAC 388-78A-2050, are typically ambulatory and do not require frequent presence and frequent evaluation of a registered nurse.
- AFHs are available to anyone over age 18 requiring support and supervision. Residents can pay privately or be funded through DSHS if they are eligible.
