**NOTE:** If the above table does not identify correct project events in the change from nursing home beds to the proposed alternate use, please provide a listing of those project events with the projected completion dates. This information is used when evaluating future extension requests.

By submitting this request, the licensee reserves the rights to convert the banked beds back to nursing home care within the same nursing facility provided that the facility has remained in continuous operation, the facility has not been purchased or leased and has otherwise continued to qualify for bed banking. I further understand the initial time period for the bed banking is four years. Prior to the end of the four years, I must either convert the beds back to nursing home care as outlined in WAC 246-310-395 or request an extension as outlined in WAC 246-310-580 for one an additional four year period.

To effectuate this banking, the licensee must proceed with de-licensing the beds with the Department of Social and Health Services (DSHS). The Department of Health will bank the eligible beds as of the effective date of the license modification from DSHS.
