An acute care hospital may not be the appropriate setting for all reproductive health services listed below. Some reproductive services are most appropriately available in outpatient settings such as a physician office or clinic, depending on the specific patient circumstances.

The following reproductive health services are generally available at the above listed hospital:

## Abortion services
- ☑ Medication abortion
- ☑ Referrals for abortion
- ☑ Surgical abortion

## Contraception services
- ☑ Birth control: provision of the full range of Food and Drug Administration-approved methods including intrauterine devices, pills, rings, patches, implants, etc.
- ☑ Contraceptive counseling
- ☑ Hospital pharmacy dispenses contraception
- ☑ Removal of contraceptive devices
- ☐ Tubal ligations
- ☐ Vasectomies

## Emergency contraception services
- ☑ Emergency contraception - sexual assault
- ☑ Emergency contraception - no sexual assault

## Pregnancy-related services
- ☑ Counseling
- ☑ Genetic testing
- ☐ Labor and delivery
- ☑ Neonatal intensive care unit
- ☐ Prenatal care
- ☐ Postnatal care
- ☐ Ultrasound

## Infertility services
- ☐ Counseling
- ☐ Infertility testing and diagnosis
- ☐ Infertility treatments including but not limited to in vitro fertilization

## Other related services
- ☑ Human immunodeficiency virus (HIV) testing
- ☑ Human immunodeficiency virus (HIV) treatment
- ☑ Pre-exposure prophylaxis (PrEP), post-exposure prophylaxis (PEP), prescriptions, and related counseling
- ☑ Sexually transmitted disease testing and treatment
- ☐ Treatment of miscarriages and ectopic pregnancies

## Comments; limitations on services; other services

Some of the services listed on this form are most appropriately and commonly provided outside of the acute care hospital setting. Some services are marked because they may be available under very specific patient circumstances. Please contact the hospital with specific questions.
