# Legacy Salmon Creek Medical Center Central Sterile Staffing Plan

**Date of Review:** 5/2018

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The CS Supervisor considers all factors when making assignments and managing the patient flow.

| Hours of Operation       | Sunday through Friday 24 hours  
|                         | Saturday 7:00 AM to 9:30 PM  
|                         | Stand-by Holidays 7:00 AM to 7:30 PM  

| Unit Staffing             | 1 Supervisor Monday through Friday 7:00 AM to 3:30 PM  
|                         | 1 Implant Coordinator Monday through Friday 7:00 AM to 3:30 PM  
|                         | 5 techs Monday through Friday 7:00 AM to 3:30 PM (6 techs on Wednesday and Thursday)  
|                         | 2 techs Monday through Friday 11:00 AM to 7:30 PM  
|                         | 1-tech Monday through Wednesday and Friday 11:00 AM to 9:30 PM  
|                         | 1 Supervisor Monday through Friday 2:00 PM to 10:30 PM  
|                         | 5 techs Monday through Friday 3:00 PM to 11:30 PM  
|                         | 1 techs Sunday through Thursday 11:00 PM to 7:30 AM  
|                         | 1 tech Saturday and Sunday 7:00 AM to 5:30 PM  
|                         | 1 tech Saturday and Sunday 11:00 AM to 9:30 PM  

| Break and Lunch Considerations | Breaks and lunches are offered following the Washington state requirements. Techs are relieved for uninterrupted-meal periods.  

| Geographical Considerations | This unit contains sterile storage, assembly/ sterilization area, and decontamination. Patient and case tracking boards are located at the assembly area.  

## Legacy Salmon Creek Medical Center Central Sterile Staffing Plan

| General Considerations | • Staffing and standards of care are based on Legacy policies, AAMI, and AORN.  
| | • This unit is also supported by Environmental Services and Material Operations Services. |
| Measurement Methods | • Any staff member that has concerns about staffing of the unit is encouraged to share their concerns with their department supervisors, manager, and/or unit leadership. We also request documenting concerns and response in Legacy's internal tracking system.  
| | • At each Staffing Committee meeting, any staffing concern brought forward will be reviewed. The Staffing Committee will then make recommendations based on to the concern brought forward.  
| | Non-Clinical:  
| | • Employee Engagement Scores  
| | Clinical:  
| | • Immediate Use Steam Sterilization (IUSS) Percentage  
| | • Surgical Site Infections |

# Family Birth Center at Legacy Salmon Creek Medical Center Nursing Staffing Plan

**Date of Review: 6/27/18**

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all of these factors when making assignments and managing the patient flow.

<table>
<thead>
<tr>
<th>Hours of Operation</th>
<th>24 hours a day, 7 days a week, 365 days a year</th>
</tr>
</thead>
</table>
| **Unit Staffing**  | • Minimum staffing: 1 charge RN, 2 additional RNs, 1 Surgical Tech  
                    • Core staffing: 24 RNs & 3 techs on day shift; 21 RNs & 3 techs on night shift. Core staffing will increase or flex based on patient acuity and volume  
                    • Staffing is based on AWOHNN Guidelines, census, and patient acuity. Target staffing levels vary due to changes in nursing intensity. |
| **Break and Lunch Considerations** | The hours of care required to provide lunch are considered at the time the staffing levels are designed for the patient populations. The presence of the charge nurse and other nurses within the department is also a consideration as these nurses are qualified to provide lunch coverage.  

Breaks and lunches are offered within Washington state requirements. Nurses hand off patient care and are provided uninterrupted meal periods. |
| **Geographical Considerations** | This unit contains 18 LDRs, 16 AP/PP GYN rooms, 3 ORs, 3 PACUs, 4 triage rooms, and 1 expanded care newborn nursery.  

Each unit has 1 clean and 1 dirty utility room, one nurse’s station, computers in all patient rooms, and central monitoring for fetal strips at the LDR nurse’s stations on 4C & 4D. |
# Family Birth Center at Legacy Salmon Creek Medical Center Nursing Staffing Plan

## General Considerations
- Staffing and standards of care are based on AWHONN Guidelines.
- This unit is also supported by Lactation, NICU, Respiratory Therapy, IV Resources, Dietary, Imaging, Pharmacy, Social Worker, RN Case Manager, as well as Occupational, Physical and Speech Therapies; as well as additional ancillary services based on patient and unit needs.

## Measurement Methods
- Any staff member that has concerns about staffing of the unit is encouraged to share their concerns with their charge nurse, house supervisors, and/or unit leadership. We also request documenting concerns and response in Legacy’s internal tracking system.
- At each Staffing Committee meeting, any staffing concern brought forward will be reviewed. The Staffing Committee will then make recommendations based on the concern brought forward.

**Non-Clinical:**
- Patient Experience Results
- Employee Engagement Scores

**Clinical:**
- Surgical Site Infection rates
- Falls
- Catheter Associated Urinary Tract Infection
- Hand hygiene audits
- Medication Errors

# Medical Specialties Unit at Legacy Salmon Creek Medical Center Nursing Staffing Plan

**Date of Review: 5/24/2018**

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all of these factors when making assignments and managing the patient flow of admissions, discharges and transfers.

<table>
<thead>
<tr>
<th>Hours of Operation</th>
<th>24 hours a day, 7 days a week, 365 days a year</th>
</tr>
</thead>
</table>

## Unit Staffing

- One charge nurse every shift.
- Minimum staffing: 2 RNs
- Core staffing: 9 RNs plus charge nurse on Day shift and 8 RNs plus charge nurse on Night shift. 4 CHTs on Day shift, 2 CHTs on Night shift. An LPN can replace an RN in our core staffing numbers, as long as the appropriate clinical oversight is in place.
- Ratios: *All ratios may vary depending on patient acuity, unit needs, or need for close observation*. 1 RN for up to 4 patients for both Day shift and Night shift. Charge RNs do not have a patient assignment for both Day shift and Night shift. 1 CHT for up to 8 patients on Day shift. 1 CHT for up to 16 patients on Night shift. When an LPN is assigned a patient assignment, a RN is assigned clinical oversight to allow the LPN to function within their practice scope.
- One unit secretary provides clerical support 36h/week, Monday – Friday
- Overflow Staffing: At time of peak census, Medical Specialties may overflow patients to another area of the hospital that is not 5C & 5D. Staffing ratios and minimal staffing will be maintained in overflow areas. Operating overflow area will increase our core staffing requirements.

## Break and Lunch Considerations

The hours of care required to provide lunch are considered at the time the staffing levels are designed for the patient populations. The presence of the charge nurse and other nurses within the department is also a consideration as these nurses are qualified to provide lunch coverage.

Breaks and lunches are offered within Washington state requirements. Nurses hand off patient care and are provided uninterrupted meal periods.

## Geographical Considerations

This unit contains 32 private patient rooms and is located on the 5th floor, wings 5C & 5D. There are 2 patient rooms that are negative airflow specifically for patients requiring airborne isolation.

The department is divided into two wings, each with a clean utility room, dirty utility room, a nurse’s station, mounted computer in all patient rooms, centrally located patient call station/nurse tracking system, two Pyxis machines, and a centrally located supply room.
**Medical Specialties Unit at Legacy Salmon Creek Medical Center Nursing Staffing Plan**

In times of peak census, overflow areas may be designated as part of the Medical Specialties Unit. Our primary overflow unit is 5A where a maximum of 12 patients can be cared for. Hospital Leadership may designate other physical locations for medical overflow if necessary to meet our patient needs.

<table>
<thead>

# PACU at Legacy Salmon Creek Medical Center Nursing Staffing Plan

**Date of Review: 6/27/18**

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all of these factors when making assignments and managing the patient flow.

| Hours of Operation | Monday-Thursday 0700-2130  
Friday 0730-2130  
Saturday-Sunday 0800-2030  
- 2 RN's on stand-by 1800-0800 every day,  
- 1 RN on stand-by 0700-2030, 2 RNs on stand-by 1900-0830 Sat. and Sun.  
- 2 RNs on stand-by 0600-0730 holidays (24.5 hours)  
- 1 CHT on stand-by 0700-2030 Sat. and Sun.  
*All stand-by times are subject to change based on scheduled cases in the Operating Room* |
| --- | --- |
| Unit Staffing | 1 Charge RN  
5-6 RN's Mon-Fri with variable start times based upon the OR schedule. Flex to volume.  
1 CHT Mon-Fri 0800-1830 depending on census  
*Number of RNs and use of CHT varies daily depending on scheduled/acuity of scheduled procedures.* |
| Break and Lunch Considerations | The hours of care required to provide lunch are considered at the time the staffing levels are designed for the patient populations. The presence of the charge nurse and other nurses within the department is also a consideration as these nurses are qualified to provide lunch coverage.  
Breaks and lunches are offered within Washington state requirements. Nurses hand off patient care and are provided uninterrupted meal periods. |
| Geographical Considerations |  
- This unit contains 11 PACU bays, 2 isolation bays, and a clean and soiled utility room.  
- Isolation bays are negative airflow specifically for patients requiring airborne isolation.  
- The unit has one Pyxis machine. |
# PACU at Legacy Salmon Creek Medical Center Nursing Staffing Plan

## General Considerations
- Based on American Society of PeriAnesthesia Nurses (ASPN) Guidelines and Legacy Policies
- This unit is also supported by Respiratory Therapy, IV Resources, Imaging, and Environmental Services.

## Measurement Methods
- Any staff member that has concerns about staffing of the unit is encouraged to share their concerns with their charge nurse, house supervisors, and/or unit leadership. We also request documenting concerns and response in Legacy’s internal tracking system.
- At each Staffing Committee meeting, any staffing concern brought forward will be reviewed. The Staffing Committee will then make recommendations based on to the concern brought forward.

Mr. Bryce Helgerson
President, Legacy Salmon Creek Medical Center
2211 N.E. 139th Street
Vancouver, WA 98686

Dear Bryce,
Attached, you will find unit specific staffing plans developed by the Legacy Salmon Creek Staffing Committee for:

- Emergency Department
- Short Stay Unit (SSU)
- Post Anesthesia Care Unit (PACU)
- Operating Room
- Central Sterile
- Cath Lab
- Endoscopy
- Intensive Care Unit
- Intermediate Care Unit
- Family Birth Center
- Neonatal Intensive Care Unit
- Medical Specialties
- Surgical Specialties/Total Joint Center
- Progressive Cardiac Care Unit

At this time, the Staffing Committee has no further staffing specific recommendations.

By signing below, you are approving the final staffing plans that have been approved by the Staffing Committee.

## Unit Staffing

- 1 Charge RN for 6A/B, 1 Charge RN for 5B
- Core staffing 4 RNs on day shift and night shift on each unit: 6A/6B/5B
- Helper RN for 6A/6B/5B *Varies depending on census*
- Core staffing 2 CHTs on day shift and 1 CHT on night shift on each unit: 6A/6B/5B
- Core staffing 1 Monitor Tech on day shift and on night shift
- One 8-hour shift 0800-1630 Unit Secretary Monday through Friday except off for Legacy recognized holidays
- Minimum Staffing for any of the 3 units, 6A, 6B, 5B, would be 1 RN and 1 CHT with a Charge available or 2 RNs (1 can be the Charge RN). Minimum staffing level applies to 4 patients or fewer on the unit.
- **Ratios:** 1 RN for up to 4 patients for both Day shift and Night shift on 6A/6B/5B. Charge RNs do not have a patient assignment for both Day shift and Night shift. 1 CHT for up to 8 patients Day shift on 6A/6B/5B. 1 CHT for up to 16 patients on Night shift on 6A/6B/5B. *All ratios may vary depending on patient acuity or need for close observation.*

| Unit Staffing      | • Minimum staffing: 1 Charge RN and 1 Resuscitation RN for each shift  
                     • Minimal staffing: for patient care 3 RNs per shift, 2 RN’s per shift if no patients, with standby available to be at work in 30 minutes  
                     • Core staffing 5, will increase or flex staff based on patient acuity and volume  
                     • Staffing is based on National Association of Neonatal Nurses (NANN) Guidelines (1:1, 2:1, 3:1, 4:1 based on acuity) |
| Break and Lunch Considerations | The hours of care required to provide lunch are considered at the time the staffing levels are designed for the the patient populations. The presence of the charge nurse and other nurses within the department is also a consideration as these nurses are qualified to provide lunch coverage.  
Breaks and lunches are offered within Washington state requirements. Nurses hand off patient care and are provided uninterrupted meal periods. |
| Geographical Considerations | This unit contains 15 private patient rooms, with three rooms designated for twins, for a total of 18 beds, and with 4 beds located in the special care nursery overflow for a total of 22 beds. All rooms are designed for patient care. There are 2 patient rooms that are negative airflow specifically for patients requiring airborne isolation.  
The department has 2 clean and 1 dirty utility rooms, one nurse’s stations, computers in all patient rooms, centrally monitoring at nurse’s station. There is one medication room with Pyxis and one nutrition room. |
# Neonatal ICU at Legacy Salmon Creek Medical Center Nursing Staffing Plan

| General Considerations | • Staffing and standards of care are based on Legacy policies and National Association of Neonatal Nurses (NANN) guidelines.  
|                         | • This unit is also supported by Respiratory Therapy, IV Resources, Dietary, Imaging, Pharmacy, Social Worker, RN Case Manager, as well as Occupational, Physical and Speech Therapies; as well as additional ancillary services based on patient and unit needs. |
| Measurement Methods     | • Any staff member that has concerns about staffing of the unit is encouraged to share their concerns with their charge nurse, house supervisors, and/or unit leadership. We also request documenting concerns and response in Legacy's internal tracking system.  
|                         | • At each Staffing Committee meeting, any staffing concern brought forward will be reviewed. The Staffing Committee will then make recommendations based on the concern brought forward.  
|                         | **Non-Clinical:**  
|                         | • Patient Experience Results  
|                         | • Employee Engagement Scores  
|                         | **Clinical:**  
|                         | • Hospital Acquired Pressure Injury  
|                         | • Falls  
|                         | • Clostridium Difficile Infection

Endoscopy at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Date of Review: 6/27/18

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all of these factors when making assignments and managing the patient flow.

| Hours of Operation | Monday through Friday 0700-1630  
| Stand-by: |  
| 1 Endo RN and 1 Sedation RN on stand-by 1630-0700 M-Fri. and 0700-0700 Sat. and Sun.  
| -Stand-by RN for ERCP M-Fri. 1630-1930, Sat. and Sun. 0800-2030  

| Unit Staffing |  
| 1 Charge RN  
| 1 CHT for scope reprocessing based on number of scheduled procedures.  
| 1-5 RNs based on case type and/or the need to run 2 rooms.  
| Minimal staffing is 2 RNs  

Number of RNs and use of CHT varies daily depending on scheduled/acuity of scheduled procedures.

| Break and Lunch Considerations | Cases are scheduled with breaks and lunches considered. If there are not enough team members to break the team members for lunch, the team will break between cases.  
| Breaks and lunches are offered within Washington state requirements.  

| Geographical Considerations |  
| This unit contains 2 procedure suites, a utility room for soiled scopes, a clean room for reprocessing and scope storage.  
| Each room has negative airflow specifically for patients requiring airborne isolation.  
| Each room has a dedicated Pyxis machine  

| General Considerations |  
| Based on Society of Gastroenterology Nurses and Associates (SGNA) Guidelines and Legacy Health System Sedation Policy  
| This unit is also supported by Respiratory Therapy, IV Resources, Imaging, and Environmental Services.

# Emergency Department at Legacy Salmon Creek Medical Center Nursing Staffing Plan

Date of Review: 6/19/2018

The unit staffing plan includes data and information of the multiple of factors that impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse takes into account all of these factors when making assignments and managing the patient flow of admissions, discharges and transfers.

<table>
<thead>
<tr>
<th>Hours of Operation</th>
<th>Open 24 hours a day/7 days a week/365 days a year (including all holidays)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit Staffing</td>
<td>• 1 Charge RN &lt;br&gt; • 10-22 staff RNs with variable start times based on volume. Increasing staff or flexing staff is based on patient census and acuity. &lt;br&gt; • Staffing assignments are 4:1 but actual room assignments are all 3:1 and 2:1. &lt;br&gt; • Minimum staffing is 2 staff members per open pod (a minimum of 1 RN)</td>
</tr>
<tr>
<td>Break and Lunch Considerations</td>
<td>The hours of care required to provide lunch are considered at the time the staffing levels are designed for the the patient populations. The presence of the charge nurse and other nurses within the department is also a consideration as these nurses are qualified to provide lunch coverage. &lt;br&gt; &lt;br&gt; Breaks and lunches are offered within state requirements. Nurses hand off patient care and are provided uninterrupted meal periods.</td>
</tr>
<tr>
<td>Geographical Considerations</td>
<td>This unit contains 32 private patient rooms. All rooms are designed for patient care. There are 2 patient rooms that are secure for behavioral health patients. There are also 4 additional rooms at the front of the department that are used for triage and flow depending on patient volume. There are 6 rooms that are negative airflow specifically for patients requiring airborne isolation. &lt;br&gt; &lt;br&gt; The department has 3 clean and 3 dirty utility rooms, four nurse’s stations, computer or computer on wheels in all patient rooms, and 5 pyxis machines throughout the department. &lt;br&gt; &lt;br&gt; Short Stay rooms 201-212 are utilized and staffed by the Emergency Department between the hours of 1400-2330 daily for pediatric patients 17 and younger.</td>
</tr>
</tbody>
</table>
## Emergency Department at Legacy Salmon Creek Medical Center Nursing Staffing Plan

### General Considerations
- Staffing and standards of care are based on Legacy policies and guidelines.
- This unit is also supported by Respiratory Therapy, IV Resources, Critical Response Nurse, CSW, Care Management Nurse, Pharmacist and additional ancillary services based on patient and unit needs.

### Measurement Methods
- Any staff member that has concerns about staffing of the unit is encouraged to share their concerns with their charge nurse, house supervisors, and/or unit leadership. We also request documenting concerns and response in Legacy’s internal tracking system.
- At each Staffing Committee meeting, any staffing concern brought forward will be reviewed. The Staffing Committee will then make recommendations based on the concern brought forward.

#### Non-Clinical:
- Patient Experience Results
- Employee Engagement Scores

#### Clinical:
- Surgical Site Infection rates
- Falls
- Hand hygiene audits
- Medication Errors
- Hospital Consumer Assessment of Healthcare Providers and Systems
- Hospital Acquired Pressure Injury rates
- Catheter Associated Urinary Tract Infection rates
- Central Line Associated Blood Stream Infection rates

# Cath Lab at Legacy Salmon Creek Medical Center Nursing Staffing Plan

**Date of Review: 6/27/18**

The unit staffing plan is intended to impact the ability to provide safe patient care. No single data point is used as the sole determinate of staffing. The RN charge nurse considers all of these factors when making assignments and managing the patient flow.

| Hours of Operation | Monday through Friday 0700-1730  
| | Stand-by: Stand-by team of 4 (minimum of 1 RN and 1 Rad Tech) will stay for cases started prior to 1730 closing time. |

| Unit Staffing | 1 Charge RN  
| | 1 Lead Tech  
| | 4-6 staff based on case type and/or the need to run 2 rooms.  
| | All employees begin their shift at 0700. There is a mix of 8 hour and 10 hour employees.  
| | Minimal staffing is 4 team members which is a mix of radiology technicians and registered nurses. There must be a minimum of 1 RN and 1 Radiology Technician for each case. |

| Break and Lunch Considerations | Cases are scheduled with breaks and lunches considered. If there are not enough team members to break the team members for lunch, the team will break between cases.  
| | Breaks and lunches are offered within Washington state requirements. |

| Geographical Considerations | This unit contains 2 procedure suites.  
| | Each room has negative airflow specifically for patients requiring airborne isolation.  
| | Each room has a dedicated Pyxis machine.  
| | Each suite is restricted access entry according to Legacy policy. |
