An acute care hospital may not be the appropriate setting for all reproductive health services listed below. Some reproductive services are most appropriately available in outpatient settings such as a physician office or clinic, depending on the specific patient circumstances.

The following reproductive health services are generally available at the above listed hospital:

Abortion services
- Medication abortion
- Referrals for abortion
- Surgical abortion

Contraception services
- Birth control: provision of the full range of Food and Drug Administration-approved methods including intrauterine devices, pills, rings, patches, implants, etc.
- Contraceptive counseling
- Hospital pharmacy dispenses contraception
- Removal of contraceptive devices
- Tubal ligations
- Vasectomies

Emergency contraception services
- Emergency contraception - sexual assault
- Emergency contraception - no sexual assault

Infertility services
- Counseling
- Infertility testing and diagnosis
- Infertility treatments including but not limited to in vitro fertilization

Other related services
- Human immunodeficiency virus (HIV) testing
- Human immunodeficiency virus (HIV) treatment
- Pre-exposure prophylaxis (PrEP), post-exposure prophylaxis (PEP), prescriptions, and related counseling
- Sexually transmitted disease testing and treatment
- Treatment of miscarriages and ectopic pregnancies

Pregnancy-related services
- Counseling
- Genetic testing
- Labor and delivery
- Neonatal intensive care unit
- Prenatal care
- Postnatal care
- Ultrasound

Comments; limitations on services; other services

Hospital name: Odessa Memorial Healthcare Center

**Hospital Reproductive Health Services**

**Additional comments; limitations on services; other services (continued)**

**Other related Services:**

Contraceptive counseling- Only in an emergent situation in which a patient is requesting emergency contraception for sexual assault or not sexual assault.

HIV testing- Samples can be ordered and collected as a result of an Emergency Room if the provider deems it necessary for the care and treatment of the patient. Testing for this is completed by OMHC's reference lab (not on-site) within a 1 week timeframe. The results will be reported to the patient's primary provider for follow-up care and treatment.

Sexually transmitted disease testing and treatment- Samples can be ordered and collected as a result of an Emergency Room if the provider deems it necessary for the care and treatment of the patient. Testing for this is completed by OMHC's reference lab (not on-site) within a 1 week timeframe. The results will be reported to the patient's primary provider for follow-up care and treatment.

Treatment of miscarriages and ectopic pregnancies- Only in an emergency situation in which the patient will be stabilized and transferred to the most appropriate tertiary center for further care.
