---

An acute care hospital may not be the appropriate setting for all reproductive health services listed below. Some reproductive health services are most appropriately available in outpatient settings such as a physician office or clinic, depending on the specific patient circumstances.

---

The following reproductive health services are generally available at the above listed hospital:

#### Abortion services
- Medication abortion
- Referrals for abortion
- Surgical abortion

#### Contraception services
- Birth control: provision of the full range of Food and Drug Administration-approved methods including intrauterine devices, pills, rings, patches, implants, etc.
- Contraceptive counseling
- Hospital pharmacy dispenses contraception
- Removal of contraceptive devices
- Tubal ligations
- Vasectomies

#### Emergency contraception services
- Emergency contraception - sexual assault
- Emergency contraception - no sexual assault

#### Infertility services
- Counseling
- Infertility testing and diagnosis
- Infertility treatments including but not limited to in vitro fertilization

#### Other related services
- Human immunodeficiency virus (HIV) testing
- Human immunodeficiency virus (HIV) treatment
- Pre-exposure prophylaxis (PrEP), post-exposure prophylaxis (PEP), prescriptions, and related counseling
- Sexually transmitted disease testing and treatment
- Treatment of miscarriages and ectopic pregnancies

#### Pregnancy-related services
- Counseling
- Genetic testing
- Labor and delivery
- Neonatal intensive care unit
- Prenatal care
- Postnatal care
- Ultrasound

#### Comments; limitations on services; other services
- SPMC is a 10 bed Critical Access Hospital that typically refers pregnancy related patients to appropriate services and has limited related services:
  - PEP only
  - Counseling is provided in the form of follow up appointments
  - Pregnancy related emergency services with appropriate follow up counseling and referrals
